INTELLECTUAL PROPERTY CONFERENCE OF STOCKHOLM, 1967

Nice Agreement Concerning the International Classification of Goods and Services for the Purposes of the Registration of Marks

of June 15, 1957,
as revised at STOCKHOLM on July 14, 1967¹⁾

Article 1

[Establishment of a Special Union; Adoption of an International Classification; Definition of International Classification; Languages]²⁾

(1) The countries to which this Agreement applies constitute a Special Union.

(2) They adopt, for the purposes of the registration of marks, a single classification of goods and services.

(3) This classification consists of:

- (a) a list of classes;
- (b) an alphabetical list of goods and services with an indication of the classes into which they fall.

(4) The list of classes and the alphabetical list of goods are those which were published in 1935 by the International Bureau for the Protection of Industrial Property.

(5) The list of classes and the alphabetical list of goods and services may be amended or supplemented by the Committee of Experts set up under Article 3 of this Agreement, in accordance with the procedure laid down in that Article.

(6) The classification shall be established in the French language and, at the request of any contracting country, an official translation into the language of that country may be published by the International Bureau of Intellectual Property (hereinafter designated as "the International Bureau") referred to in the Convention establishing the World Intellectual Property Organization (hereinafter designated as "the Organization"), in agreement with the national Office concerned. Each translation of the list of goods and services shall mention against each of the goods or services, in addition to its number according to the alphabetical listing in the language concerned, the number which it bears in the list established in the French language.

Article 2

[Legal Scope and Use of the International Classification]

(1) Subject to the requirements prescribed by this Agreement, the effect of the international classification shall be that attributed to it by each contracting country. In particular, the international classification shall not bind the contracting countries in respect of either the evaluation of the extent of the protection afforded to any given mark or the recognition of service marks.

¹⁾ This is a provisional English translation prepared by BIRPI.

²⁾ Articles have been given titles to facilitate their identification. There are no titles in the signed, French text.

(2) Each of the contracting countries reserves the right to use the international classification of goods and services as a principal or as a subsidiary system.

(3) The Offices of the contracting countries shall include in the official documents and publications concerning the registrations of marks the numbers of the classes of the international classification to which the goods or services for which the mark is registered belong.

(4) The fact that a term is included in the alphabetical list of goods and services in no way affects any rights which might subsist in such a term.

Article 3

[Amendments and Additions to the International Classification;
Committee of Experts]

(1) A Committee of Experts charged with deciding all amendments and additions to be made in the international classification of goods and services shall be set up at the International Bureau. Each of the contracting countries shall be represented on the Committee of Experts, which shall be organized according to Regulations adopted by a majority of the countries represented. The International Bureau shall be represented on the Committee.

(2) Proposals for amendments or additions shall be addressed by the Offices of the contracting countries to the International Bureau, which shall transmit them to the members of the Committee of Experts not later than two months before that session of the Committee at which the said proposals are to be considered.

(3) Decisions of the Committee concerning amendments to the classification shall require the unanimous consent of the contracting countries. "Amendment" shall mean any transfer of goods from one class to another or the creation of any new class entailing such transfer.

(4) Decisions of the Committee concerning additions to the classification shall require a simple majority of the votes of the contracting countries.

(5) Each expert shall have the right to submit his opinion in writing or to delegate his powers to the expert of another country.

(6) If a country does not appoint an expert to represent it, or if the expert appointed does not submit his opinion within a period to be prescribed by the Regulations, the country concerned shall be considered to have accepted the decision of the Committee.

Article 4

[Notification, Entry Into Force, and Publication, of Amendments and Additions]

(1) Every amendment and addition decided by the Committee of Experts shall be notified to the Offices of the contracting countries by the International Bureau. The decisions shall come into force, in so far as additions are concerned, as soon as the notification is received, and, as far as amendments are concerned, within a period of six months from the date of dispatch of the notification.

(2) The International Bureau, as the depositary of the classification of goods and services, shall incorporate therein the amendments and additions which have entered into force. Announcements of such amendments and additions shall be published in the two periodicals, *La Propriété industrielle* and *Les Marques internationales*.

Article 5

[Assembly of the Special Union]

(1) (a) The Special Union shall have an Assembly consisting of those countries which have ratified or acceded to this Act.

(b) The Government of each country shall be represented by one delegate, who may be assisted by alternate delegates, advisors, and experts.

(c) The expenses of each delegation shall be borne by the Government which has appointed it.

(2) (a) Subject to the provisions of Articles 3 and 4, the Assembly shall:

- (i) deal with all matters concerning the maintenance and development of the Special Union and the implementation of this Agreement;
- (ii) give directions to the International Bureau concerning the preparation for conferences of revision, due account being taken of any comments made by those countries of the Special Union which have not ratified or acceded to this Act;
- (iii) review and approve the reports and activities of the Director General of the Organization (hereinafter designated as "the Director General") concerning the Special Union, and give him all necessary instructions concerning matters within the competence of the Special Union;
- (iv) determine the program and adopt the triennial budget of the Special Union, and approve its final accounts;
- (v) adopt the financial regulations of the Special Union;
- (vi) establish, in addition to the Committee of Experts referred to in Article 3, such other committees of experts and working groups as it may deem necessary to achieve the objectives of the Special Union;
- (vii) determine which countries not members of the Special Union and which intergovernmental and international non-governmental organizations shall be admitted to its meetings as observers;
- (viii) adopt amendments to Articles 5 to 8;
- (ix) take any other appropriate action designed to further the objectives of the Special Union;
- (x) perform such other functions as are appropriate under this Agreement.

(b) With respect to matters which are of interest also to other Unions administered by the Organization, the Assembly shall make its decisions after having heard the advice of the Coordination Committee of the Organization.

(3) (a) Each country member of the Assembly shall have one vote.

(b) One-half of the countries members of the Assembly shall constitute a quorum.

(c) Notwithstanding the provisions of subparagraph (b), if, in any session, the number of countries represented is less than one-half but equal to or more than one-third of the countries members of the Assembly, the Assembly may make decisions but, with the exception of decisions concerning its own procedure, all such decisions shall take effect only if the conditions set forth hereinafter are fulfilled. The International Bureau shall communicate the said decisions to the countries members of the Assembly which were not represented and shall invite them to express in writing their vote or abstention within a period of three months from the date of the communication. If, at the expiration of this period, the number of countries having thus expressed their vote or abstention attains the number of countries which was lacking for attaining the quorum in the session itself, such decisions shall take effect provided that at the same time the required majority still obtains.

(d) Subject to the provisions of Article 8(2), the decisions of the Assembly shall require two-thirds of the votes cast.

(e) Abstentions shall not be considered as votes.

(f) A delegate may represent, and vote in the name of, one country only.

(g) Countries of the Special Union not members of the Assembly shall be admitted to the meetings of the latter as observers.

(4) (a) The Assembly shall meet once in every third calendar year in ordinary session upon convocation by the Director General and, in the absence of exceptional circumstances, during the same period and at the same place as the General Assembly of the Organization.

(b) The Assembly shall meet in extraordinary session upon convocation by the Director General, at the request of one-fourth of the countries members of the Assembly.

(c) The agenda of each session shall be prepared by the Director General.

(5) The Assembly shall adopt its own rules of procedure.

Article 6

[International Bureau]

(1) (a) Administrative tasks concerning the Special Union shall be performed by the International Bureau.

(b) In particular, the International Bureau shall prepare the meetings and provide the secretariat of the Assembly, the Committee of Experts, and such other committees of experts and working groups as may have been established by the Assembly or the Committee of Experts.

(c) The Director General shall be the chief executive of the Special Union and shall represent the Special Union.

(2) The Director General and any staff member designated by him shall participate, without the right to vote, in all meetings of the Assembly, the Committee of Experts, and such other committees of experts or working groups as may have been established by the Assembly or the Committee of Experts. The Director General, or a staff member designated by him, shall be ex officio secretary of those bodies.

(3) (a) The International Bureau shall, in accordance with the directions of the Assembly, make the preparations for the conferences of revision of the provisions of the Agreement other than Articles 5 to 8.

(b) The International Bureau may consult with inter-governmental and international non-governmental organizations concerning preparations for conferences of revision.

(c) The Director General and persons designated by him shall take part, without the right to vote, in the discussions at those conferences.

(4) The International Bureau shall carry out any other tasks assigned to it.

Article 7

[Finances]

(1) (a) The Special Union shall have a budget.

(b) The budget of the Special Union shall include the income and expenses proper to the Special Union, its contribution to the budget of expenses common to the Unions, and, where applicable, the sum made available to the budget of the Conference of the Organization.

(c) Expenses not attributable exclusively to the Special Union but also to one or more other Unions administered by the Organization shall be considered as expenses common to the Unions. The share of the Special Union in such common expenses shall be in proportion to the interest the Special Union has in them.

(2) The budget of the Special Union shall be established with due regard to the requirements of coordination with the budgets of the other Unions administered by the Organization.

(3) The budget of the Special Union shall be financed from the following sources:

- (i) contributions of the countries of the Special Union;
- (ii) fees and charges due for services rendered by the International Bureau in relation to the Special Union;
- (iii) sale of, or royalties on, the publications of the International Bureau concerning the Special Union;
- (iv) gifts, bequests, and subventions;
- (v) rents, interests, and other miscellaneous income.

(4) (a) For the purpose of establishing its contribution referred to in paragraph (3)(i), each country of the Special Union shall belong to the same class as it belongs to in the Paris Union for the Protection of Industrial Property, and shall pay its annual contributions on the basis of the same number of units as is fixed for that class in that Union.

(b) The annual contribution of each country of the Special Union shall be an amount in the same proportion to the total sum to be contributed to the budget of the Special Union by all countries as the number of its units is to the total of the units of all contributing countries.

(c) Contributions shall become due on the first of January of each year.

(d) A country which is in arrears in the payment of its contributions may not exercise its right to vote in any organ of the Special Union if the amount of its arrears equals or exceeds the amount of the contributions due from it for the preceding two full years. However, any organ of the Special Union may allow such a country to continue to exercise its right to

vote in that organ if, and as long as, it is satisfied that the delay in payment is due to exceptional and unavoidable circumstances.

(e) If the budget is not adopted before the beginning of a new financial period, it shall be at the same level as the budget of the previous year, as provided in the financial regulations.

(5) The amount of the fees and charges due for services rendered by the International Bureau in relation to the Special Union shall be established, and shall be reported to the Assembly, by the Director General.

(6) (a) The Special Union shall have a working capital fund which shall be constituted by a single payment made by each country of the Special Union. If the fund becomes insufficient, the Assembly shall decide to increase it.

(b) The amount of the initial payment of each country to the said fund or of its participation in the increase thereof shall be a proportion of the contribution of that country for the year in which the fund is established or the decision to increase it is made.

(c) The proportion and the terms of payment shall be fixed by the Assembly on the proposal of the Director General and after it has heard the advice of the Coordination Committee of the Organization.

(7) (a) In the headquarters agreement concluded with the country on the territory of which the Organization has its headquarters, it shall be provided that, whenever the working capital fund is insufficient, such country shall grant advances. The amount of those advances and the conditions on which they are granted shall be the subject of separate agreements, in each case, between such country and the Organization.

(b) The country referred to in subparagraph (a) and the Organization shall each have the right to denounce the obligation to grant advances, by written notification. Denunciation shall take effect three years after the end of the year in which it has been notified.

(8) The auditing of the accounts shall be effected by one or more of the countries of the Special Union or by external auditors, as provided in the financial regulations. They shall be designated, with their agreement, by the Assembly.

Article 8

[Amendment of Articles 5 to 8]

(1) Proposals for the amendment of Articles 5, 6, 7, and the present Article, may be initiated by any country member of the Assembly, or by the Director General. Such proposals shall be communicated by the Director General to the member countries of the Assembly at least six months in advance of their consideration by the Assembly.

(2) Amendments to the Articles referred to in paragraph (1) shall be adopted by the Assembly. Adoption shall require three-fourths of the votes cast, provided that any amendment to Article 5, and to the present paragraph, shall require four-fifths of the votes cast.

(3) Any amendment to the Articles referred to in paragraph (1) shall enter into force one month after written noti-

fications of acceptance, effected in accordance with their respective constitutional processes, have been received by the Director General from three-fourths of the countries members of the Assembly at the time it adopted the amendment. Any amendment to the said Articles thus accepted shall bind all the countries which are members of the Assembly at the time the amendment enters into force, or which become members thereof at a subsequent date, provided that any amendment increasing the financial obligations of countries of the Special Union shall bind only those countries which have notified their acceptance of such amendment.

Article 9

[Ratification and Accession; Entry Into Force; Effects; Accession to the Original Act of 1957]

(1) Any country of the Special Union which has signed this Act may ratify it, and, if it has not signed it, may accede to it.

(2) Any country outside the Special Union which is party to the Paris Convention for the Protection of Industrial Property may accede to this Act and thereby become a member of the Special Union.

(3) Instruments of ratification and accession shall be deposited with the Director General.

(4) (a) With respect to the first five countries which have deposited their instruments of ratification or accession, this Act shall enter into force three months after the deposit of the fifth such instrument.

(b) With respect to any other country, this Act shall enter into force three months after the date on which its ratification or accession has been notified by the Director General, unless a subsequent date has been indicated in the instrument of ratification or accession. In the latter case, this Act shall enter into force with respect to that country on the date thus indicated.

(5) Ratification or accession shall automatically entail acceptance of all the clauses and admission to all the advantages of this Act.

(6) After the entry into force of this Act, a country may accede to the original Act of June 15, 1957, of this Agreement only in conjunction with ratification of, or accession to, this Act.

Article 10

[Force and Duration]

This Agreement shall have the same force and duration as the Paris Convention for the Protection of Industrial Property.

Article 11

[Revision]

(1) This Agreement shall be submitted to revisions with a view to the introduction of desired improvements.

(2) Every revision shall be considered at a conference which shall be held between the delegates of the countries of the Special Union.

Article 12

[Application of the Various Acts]

(1) (a) This Act shall, as regards the relations between the countries of the Special Union by which it has been ratified or acceded to, replace the original Act of June 15, 1957.

(b) However, any country of the Special Union which has ratified or acceded to this Act shall be bound by the original Act of June 15, 1957, as regards its relations with countries of the Special Union which have not ratified or acceded to this Act.

(2) Countries outside the Special Union which become party to this Act shall apply it with respect to any country of the Special Union not party to this Act. Such countries shall recognize that the aforesaid country of the Special Union may apply, as regards its relations with them, the provisions of the original Act of June 15, 1957.

Article 13

[Denunciation]

(1) Any country may denounce this Act by notification addressed to the Director General. Such denunciation shall constitute also denunciation of the original Act of June 15, 1957, of this Agreement, and shall affect only the country making it, the Agreement remaining in full force and effect as regards the other countries of the Special Union.

(2) Denunciation shall take effect one year after the day on which the Director General has received the notification.

(3) The right of denunciation provided for by this Article shall not be exercised by any country before the expiration of five years from the date upon which it becomes a member of the Special Union.

Article 14

[Reference to Article 24 of the Paris Convention (Territories)]

The provisions of Article 24 of the Paris Convention for the Protection of Industrial Property shall apply to this Agreement.

Article 15

[Signature, Languages, Depositary Functions]

(1) (a) This Act shall be signed in a single copy in the French language and shall be deposited with the Government of Sweden.

(b) Official texts shall be established by the Director General, after consultation with the interested Governments, in such other languages as the Assembly may designate.

(2) This Act shall remain open for signature at Stockholm until January 13, 1968.

(3) The Director General shall transmit two copies, certified by the Government of Sweden, of the signed text of this Act to the Governments of all countries of the Special Union and, on request, to the Government of any other country.

(4) The Director General shall register this Act with the Secretariat of the United Nations.

(5) The Director General shall notify the Governments of all countries of the Special Union of signatures, deposits of instruments of ratification or accession, entry into force of any provisions of this Act, and notifications of denunciation.

Article 16

[Transitional Provisions]

(1) Until the first Director General assumes office, references in this Act to the International Bureau of the Organization or to the Director General shall be construed as references to the Bureau of the Union established by the Paris Convention for the Protection of Industrial Property or its Director, respectively.

(2) Countries of the Special Union not having ratified or acceded to this Act may, until five years after the entry into force of the Convention establishing the Organization, exercise, if they so desire, the rights provided for under Articles 5 to 8 of this Act as if they were bound by those Articles. Any country desiring to exercise such rights shall give written notification to that effect to the Director General; such notification shall be effective from the date of its receipt. Such countries shall be deemed to be members of the Assembly until the expiration of the said period.

Lisbon Agreement for the Protection of Appellations of Origin and their International Registration

of October 31, 1958,
as revised at STOCKHOLM on July 14, 1967¹⁾

Article 1

[Establishment of a Special Union; Protection of Appellations of Origin Registered at the International Bureau]²⁾

(1) The countries to which this Agreement applies constitute a Special Union within the framework of the Union for the Protection of Industrial Property.

(2) They undertake to protect on their territories, in accordance with the terms of this Agreement, the appellations of origin of products of the other countries of the Special Union, recognized and protected as such in the country of origin and registered at the International Bureau of Intellectual Property (hereinafter designated as "the International Bureau" or "the Bureau") referred to in the Convention establishing the World Intellectual Property Organization (hereinafter designated as "the Organization").

Article 2

[Definition of Notions of Appellation of Origin and Country of Origin]

(1) In this Agreement, "appellation of origin" means the geographical name of a country, region, or locality, which serves to designate a product originating therein, the quality and characteristics of which are due exclusively or essentially to the geographical environment, including natural and human factors.

(2) The country of origin is the country whose name, or the country in which is situated the region or locality whose

name, constitutes the appellation of origin which has given the product its reputation.

Article 3

[Content of Protection]

Protection shall be ensured against any usurpation or imitation, even if the true origin of the product is indicated or if the appellation is used in translated form or accompanied by terms such as "kind," "type," "make," "imitation," or the like.

Article 4

[Protection by virtue of Other Texts]

The provisions of this Agreement shall in no way exclude the protection already granted to appellations of origin in each of the countries of the Special Union by virtue of other international instruments, such as the Paris Convention of March 20, 1883, for the Protection of Industrial Property and its subsequent revisions, and the Madrid Agreement of April 14, 1891, for the Repression of False or Deceptive Indications of Source on Goods and its subsequent revisions, or by virtue of national legislation or court decisions.

Article 5

[International Registration; Refusal and Opposition to Refusal; Notifications; Use Tolerated for a Fixed Period]

(1) The registration of appellations of origin shall be effected at the International Bureau, at the request of the Offices of the countries of the Special Union, in the name of any natural persons or legal entities, public or private, having, according to their national legislation, a right to use such appellations.

(2) The International Bureau shall, without delay, notify the Offices of the various countries of the Special Union of such registrations, and shall publish them in a periodical.

(3) The Office of any country may declare that it cannot ensure the protection of an appellation of origin whose registration has been notified to it, but only in so far as its declaration is notified to the International Bureau, together with an indication of the grounds therefor, within a period of one year from the receipt of the notification of registration, and provided that such declaration is not detrimental, in the country concerned, to the other forms of protection of the appellation which the owner thereof may be entitled to claim under Article 4, above.

(4) Such declaration may not be opposed by the Offices of the countries of the Union after the expiration of the period of one year provided for in the foregoing paragraph.

(5) The International Bureau shall, as soon as possible, notify the Office of the country of origin of any declaration made under the terms of paragraph (3) by the Office of another country. The interested party, when informed by his national Office of the declaration made by another country, may resort, in that other country, to all the judicial and administrative remedies open to the nationals of that country.

(6) If an appellation which has been granted protection in a given country pursuant to notification of its international

¹⁾ This is a provisional English translation prepared by BIRPI.

²⁾ Articles have been given titles to facilitate their identification. There are no titles in the signed, French text.

registration has already been used by third parties in that country from a date prior to such notification, the competent Office of the said country shall have the right to grant to such third parties a period not exceeding two years to terminate such use, on condition that it advise the International Bureau accordingly during the three months following the expiration of the period of one year provided for in paragraph (3), above.

Article 6

[Generic Appellations]

An appellation which has been granted protection in one of the countries of the Special Union pursuant to the procedure under Article 5 cannot, in that country, be deemed to have become generic, as long as it is protected as an appellation of origin in the country of origin.

Article 7

[Period of Validity of Registration; Fee]

(1) Registration effected at the International Bureau in conformity with Article 5 shall ensure, without renewal, protection for the whole of the period referred to in the foregoing Article.

(2) A single fee shall be paid for the registration of each appellation of origin.

Article 8

[Legal Proceedings]

Legal action required for ensuring the protection of appellations of origin may be taken in each of the countries of the Special Union under the provisions of the national legislation:

1. at the instance of the competent Office or at the request of the public prosecutor;
2. by any interested party, whether a natural person or a legal entity, whether public or private.

Article 9

[Assembly of the Special Union]

(1) (a) The Special Union shall have an Assembly consisting of those countries which have ratified or acceded to this Act.

(b) The Government of each country shall be represented by one delegate, who may be assisted by alternate delegates, advisors, and experts.

(c) The expenses of each delegation shall be borne by the Government which has appointed it.

(2) (a) The Assembly shall:

- (i) deal with all matters concerning the maintenance and development of the Special Union and the implementation of this Agreement;
- (ii) give directions to the International Bureau concerning the preparation for conferences of revision, due account being taken of any comments made by those countries of the Special Union which have not ratified or acceded to this Act;
- (iii) modify the Regulations, including the fixation of the amount of the fee referred to in Article 7(2) and other fees relating to international registration;

(iv) review and approve the reports and activities of the Director General of the Organization (hereinafter designated as "the Director General") concerning the Special Union, and give him all necessary instructions concerning matters within the competence of the Special Union;

(v) determine the program and adopt the triennial budget of the Special Union, and approve its final accounts;

(vi) adopt the financial regulations of the Special Union;

(vii) establish such committees of experts and working groups as it may deem necessary to achieve the objectives of the Special Union;

(viii) determine which countries not members of the Special Union and which intergovernmental and international non-governmental organizations shall be admitted to its meetings as observers;

(ix) adopt amendments to Articles 9 to 12;

(x) take any other appropriate action designed to further the objectives of the Special Union;

(xi) perform such other functions as are appropriate under this Agreement.

(b) With respect to matters which are of interest also to other Unions administered by the Organization, the Assembly shall make its decisions after having heard the advice of the Coordination Committee of the Organization.

(3) (a) Each country member of the Assembly shall have one vote.

(b) One-half of the countries members of the Assembly shall constitute a quorum.

(c) Notwithstanding the provisions of subparagraph (b), if, in any session, the number of countries represented is less than one half but equal to or more than one-third of the countries members of the Assembly, the Assembly may make decisions but, with the exception of decisions concerning its own procedure, all such decisions shall take effect only if the conditions set forth hereinafter are fulfilled. The International Bureau shall communicate the said decisions to the countries members of the Assembly which were not represented and shall invite them to express in writing their vote or abstention within a period of three months from the date of the communication. If, at the expiration of this period, the number of countries having thus expressed their vote or abstention attains the number of countries which was lacking for attaining the quorum in the session itself, such decisions shall take effect provided that at the same time the required majority still obtains.

(d) Subject to the provisions of Article 12(2), the decisions of the Assembly shall require two-thirds of the votes cast.

(e) Abstentions shall not be considered as votes.

(f) A delegate may represent, and vote in the name of, one country only.

(g) Countries of the Special Union not members of the Assembly shall be admitted to the meetings of the latter as observers.

(4) (a) The Assembly shall meet once in every third calendar year in ordinary session upon convocation by the Director General and, in the absence of exceptional circum-

stances, during the same period and at the same place as the General Assembly of the Organization.

(b) The Assembly shall meet in extraordinary session upon convocation by the Director General, at the request of one-fourth of the countries members of the Assembly.

(c) The agenda of each session shall be prepared by the Director General.

(5) The Assembly shall adopt its own rules of procedure.

Article 10

[International Bureau]

(1) (a) International registration and related duties, as well as all other administrative tasks concerning the Special Union, shall be performed by the International Bureau.

(b) In particular, the International Bureau shall prepare the meetings and provide the secretariat of the Assembly and of such committees of experts and working groups as may have been established by the Assembly.

(c) The Director General shall be the chief executive of the Special Union and shall represent the Special Union.

(2) The Director General and any staff member designated by him shall participate, without the right to vote, in all meetings of the Assembly and of such committees of experts or working groups as may have been established by the Assembly. The Director General, or a staff member designated by him, shall be ex officio secretary of those bodies.

(3) (a) The International Bureau shall, in accordance with the directions of the Assembly, make the preparations for the conferences of revision of the provisions of the Agreement other than Articles 9 to 12.

(b) The International Bureau may consult with inter-governmental and international non-governmental organizations concerning preparations for conferences of revision.

(c) The Director General and persons designated by him shall take part, without the right to vote, in the discussions at those conferences.

(4) The International Bureau shall carry out any other tasks assigned to it.

Article 11

[Finances]

(1) (a) The Special Union shall have a budget.

(b) The budget of the Special Union shall include the income and expenses proper to the Special Union, its contribution to the budget of expenses common to the Unions, and, where applicable, the sum made available to the budget of the Conference of the Organization.

(c) Expenses not attributable exclusively to the Special Union but also to one or more other Unions administered by the Organization shall be considered as expenses common to the Unions. The share of the Special Union in such common expenses shall be in proportion to the interest the Special Union has in them.

(2) The budget of the Special Union shall be established with due regard to the requirements of coordination with the budgets of the other Unions administered by the Organization.

(3) The budget of the Special Union shall be financed from the following sources:

- (i) international registration fees collected under Article 7(2) and other fees and charges due for other services rendered by the International Bureau in relation to the Special Union;
- (ii) sale of, or royalties on, the publications of the International Bureau concerning the Special Union;
- (iii) gifts, bequests, and subventions;
- (iv) rents, interests, and other miscellaneous income;
- (v) contributions of the countries of the Special Union, if and to the extent to which receipts from the sources indicated in items (i) to (iv) do not suffice to cover the expenses of the Special Union.

(4) (a) The amount of the fee referred to in Article 7(2) shall be fixed by the Assembly on the proposal of the Director General.

(b) The amount of the said fee shall be so fixed that the revenue of the Special Union should, under normal circumstances, be sufficient to cover the expenses of the International Bureau for maintaining the international registration service, without requiring payment of the contributions referred to in paragraph (3)(v), above.

(5) (a) For the purpose of establishing its contribution referred to in paragraph (3)(v), each country of the Special Union shall belong to the same class as it belongs to in the Paris Union for the Protection of Industrial Property, and shall pay its annual contributions on the basis of the same number of units as is fixed for that class in that Union.

(b) The annual contribution of each country of the Special Union shall be an amount in the same proportion to the total sum to be contributed to the budget of the Special Union by all countries as the number of its units is to the total of the units of all contributing countries.

(c) The date on which contributions are to be paid shall be fixed by the Assembly.

(d) A country which is in arrears in the payment of its contributions may not exercise its right to vote in any of the organs of the Special Union if the amount of its arrears equals or exceeds the amount of the contributions due from it for the preceding two full years. However, any organ of the Union may allow such a country to continue to exercise its right to vote in that organ if, and as long as, it is satisfied that the delay in payment is due to exceptional and unavoidable circumstances.

(e) If the budget is not adopted before the beginning of a new financial period, it shall be at the same level as the budget of the previous year, as provided in the financial regulations.

(6) Subject to the provisions of paragraph (4)(a), the amount of fees and charges due for other services rendered by the International Bureau in relation to the Special Union shall be established, and shall be reported to the Assembly, by the Director General.

(7) (a) The Special Union shall have a working capital fund which shall be constituted by a single payment made by

each country of the Special Union. If the fund becomes insufficient, the Assembly shall decide to increase it.

(b) The amount of the initial payment of each country to the said fund or of its participation in the increase thereof shall be a proportion of the contribution of that country as a member of the Paris Union for the Protection of Industrial Property to the budget of the said Union for the year in which the fund is established or the decision to increase it is made.

(c) The proportion and the terms of payment shall be fixed by the Assembly on the proposal of the Director General and after it has heard the advice of the Coordination Committee of the Organization.

(8) (a) In the headquarters agreement concluded with the country on the territory of which the Organization has its headquarters, it shall be provided that, whenever the working capital fund is insufficient, such country shall grant advances. The amount of those advances and the conditions on which they are granted shall be the subject of separate agreements, in each case, between such country and the Organization.

(b) The country referred to in subparagraph (a) and the Organization shall each have the right to denounce the obligation to grant advances, by written notification. Denunciation shall take effect three years after the end of the year in which it has been notified.

(9) The auditing of the accounts shall be effected by one or more of the countries of the Special Union or by external auditors, as provided in the financial regulations. They shall be designated, with their agreement, by the Assembly.

Article 12

[Amendment of Articles 9 to 12]

(1) Proposals for the amendment of Articles 9, 10, 11, and the present Article, may be initiated by any country member of the Assembly, or by the Director General. Such proposals shall be communicated by the Director General to the member countries of the Assembly at least six months in advance of their consideration by the Assembly.

(2) Amendments to the Articles referred to in paragraph (1) shall be adopted by the Assembly. Adoption shall require three-fourths of the votes cast, provided that any amendment to Article 9, and to the present paragraph, shall require four-fifths of the votes cast.

(3) Any amendment to the Articles referred to in paragraph (1) shall enter into force one month after written notifications of acceptance, effected in accordance with their respective constitutional processes, have been received by the Director General from three-fourths of the countries members of the Assembly at the time it adopted the amendment. Any amendment to the said Articles thus accepted shall bind all the countries which are members of the Assembly at the time the amendment enters into force, or which become members thereof at a subsequent date, provided that any amendment increasing the financial obligations of countries of the Special Union shall bind only those countries which have notified their acceptance of such amendment.

Article 13

[Regulations; Revision]

(1) The details for carrying out this Agreement are fixed in the Regulations.

(2) This Agreement may be revised by conferences held between the delegates of the countries of the Special Union.

Article 14

[Ratification and Accession; Entry into Force; Reference to Article 24 of Paris Convention (Territories); Accession to the Original Act of 1958]

(1) Any country of the Special Union which has signed this Act may ratify it, and, if it has not signed it, may accede to it.

(2) (a) Any country outside the Special Union which is party to the Paris Convention for the Protection of Industrial Property may accede to this Act and thereby become a member of the Special Union.

(b) Notification of accession shall, of itself, ensure, in the territory of the acceding country, the benefits of the foregoing provisions to appellations of origin which, at the time of accession, are the subject of international registration.

(c) However, any country acceding to this Agreement may, within a period of one year, declare in regard to which appellations of origin, already registered at the International Bureau, it wishes to exercise the right provided for in Article 5(3).

(3) Instruments of ratification and accession shall be deposited with the Director General.

(4) The provisions of Article 24 of the Paris Convention for the Protection of Industrial Property shall apply to this Agreement.

(5) (a) With respect to the first five countries which have deposited their instruments of ratification or accession, this Act shall enter into force three months after the deposit of the fifth such instrument.

(b) With respect to any other country, this Act shall enter into force three months after the date on which its ratification or accession has been notified by the Director General, unless a subsequent date has been indicated in the instrument of ratification or accession. In the latter case, this Act shall enter into force with respect to that country on the date thus indicated.

(6) Ratification or accession shall automatically entail acceptance of all the clauses and admission to all the advantages of this Act.

(7) After the entry into force of this Act, a country may accede to the original Act of October 31, 1958, of this Agreement only in conjunction with ratification of, or accession to, this Act.

Article 15

[Duration of the Agreement; Denunciation]

(1) This Agreement shall remain in force as long as five countries at least are party to it.

(2) Any country may denounce this Act by notification addressed to the Director General. Such denunciation shall

constitute also denunciation of the original Act of October 31, 1958, of this Agreement and shall affect only the country making it, the Agreement remaining in full force and effect as regards the other countries of the Special Union.

(3) Denunciation shall take effect one year after the day on which the Director General has received the notification.

(4) The right of denunciation provided for by this Article shall not be exercised by any country before the expiration of five years from the date upon which it becomes a member of the Special Union.

Article 16

[Application of the Original Act of 1958]

(1) This Act shall, as regards the relations between the countries of the Special Union by which it has been ratified or acceded to, replace the original Act of October 31, 1958.

(2) However, any country of the Special Union which has ratified or acceded to this Act shall be bound by the original Act of October 31, 1958, as regards its relations with countries of the Special Union which have not ratified or acceded to this Act.

(3) Countries outside the Special Union which become party to this Act shall apply it to international registrations of appellations of origin effected at the International Bureau at the request of the Office of any country of the Special Union not party to this Act, provided that such registrations satisfy, with respect to the said countries, the requirements of this Act. With regard to international registrations effected at the International Bureau at the request of the Offices of the said countries outside the Special Union which become party to this Act, such countries recognize that the aforesaid country of the Special Union may demand compliance with the requirements of the original Act of October 31, 1958.

Article 17

[Signature, Languages, Depositary Functions]

(1) (a) This Act shall be signed in a single copy in the French language and shall be deposited with the Government of Sweden.

(b) Official texts shall be established by the Director General, after consultation with the interested Governments, in such other languages as the Assembly may designate.

(2) This Act shall remain open for signature at Stockholm until January 13, 1968.

(3) The Director General shall transmit two copies, certified by the Government of Sweden, of the signed text of this Act to the Governments of all countries of the Special Union and, on request, to the Government of any other country.

(4) The Director General shall register this Act with the Secretariat of the United Nations.

(5) The Director General shall notify the Governments of all countries of the Special Union of signatures, deposits of instruments of ratification or accession, entry into force of any provisions of this Act, denunciations, and declarations pursuant to Article 14(2)(c) and (4).

Article 18

[Transitional Provisions]

(1) Until the first Director General assumes office, references in this Act to the International Bureau of the Organization or to the Director General shall be construed as references to the Bureau of the Union established by the Paris Convention for the Protection of Industrial Property or its Director, respectively.

(2) Countries of the Special Union not having ratified or acceded to this Act may, until five years after the entry into force of the Convention establishing the Organization, exercise, if they so desire, the rights provided for under Articles 9 to 12 of this Act as if they were bound by those Articles. Any country desiring to exercise such rights shall give written notification to that effect to the Director General; such notification shall be effective from the date of its receipt. Such countries shall be deemed to be members of the Assembly until the expiration of the said period.

LEGISLATION

FRANCE

I

Decree

Amending Articles 5, 6^{bis}, 7 and 32 of the Law of July 5, 1844, on Patents

(No. 61-941, of August 21, 1961)¹⁾

The Prime Minister,

On the report of the Keeper of the Seals and Minister of Justice, the Minister of Finance and Economic Affairs, the Minister of Industry, and the Minister of Posts and Telecommunications,

Considering the Constitution, particularly Article 37 thereof;

Considering the amended Law of July 5, 1844, on patents; Having heard the Council of State (Department of Public Works),

Decrees:

Article 1

Article 5 of the above Law of July 5, 1844, is hereby amended as follows:

The provision "4. A memorandum of the documents deposited" is deleted.

The following provisions are added:

"Patent applications may also be sent, by registered mail with a request for notification of receipt, to the National Institute of Industrial Property from a French or foreign post office.

¹⁾ BIRPI translation.

"Applicants residing abroad shall appoint an agent in France."

Article 2

The following is added to Article 6^{bis} of the Law of July 5, 1844:

"Documents transmitted by post must be sent by registered mail with a request for notification of receipt.

"The date considered for the calculation of the six-month period shall be the date of receipt by the National Institute of Industrial Property."

Article 3

Article 7 of the Law of July 5, 1844, is replaced by the following provisions:

"No filing of a patent shall be accepted if the application is not accompanied by proof that the fees due have been paid.

"An official certificate, issued without charge by the General Secretary of the Prefecture in the departments and, in Paris, by the Director of the National Institute of Industrial Property, shall establish the date and the time of filing of each application.

"For patent applications transmitted by post, the date and time of filing shall be those of the receipt of the envelope containing the application by the National Institute of Industrial Property. In cases where the fees are not paid until later, the date of filing shall be the date of such payment and the time of filing shall be the time the offices of the National Institute of Industrial Property closed on that day."

Article 4

The following has been added to Article 32 of the Law of July 5, 1844:

"If the last day of the periods mentioned in this Article falls on a legal holiday or on a day when the offices of the National Institute of Industrial Property competent to receive payments are not open, the period shall be extended to include the first working day thereafter."

Article 5

The Decree of September 1, 1939, governing the filing of patent applications is cancelled.

Article 6

A joint order from the Minister of Industry, the Minister of Finance and Economic Affairs, and the Minister of Posts and Telecommunications shall specify, in terms of the various methods of payment, the way in which the fees provided for in the Law of July 5, 1844, are to be regularly paid.

Article 7

The Keeper of the Seals and Minister of Justice, the Minister of Finance and Economic Affairs, the Minister of Industry, the Minister of Posts and Telecommunications, and the Secretary of State for Finances are charged, each one in so far as he is concerned, with the execution of this Decree, which shall be published in the *Journal Officiel* of the French Republic and which shall come into force on the thirtieth day following publication thereof.

II

Decree

Concerning Agreements Contracted Abroad Dealing with the Assignment or Granting of Industrial Property Rights and any Intellectual Elements of Scientific and Technical Assistance
(No. 67-82, of January 27, 1967)¹⁾

The Prime Minister,

On the report of the Minister of Industry, the Minister of Economy and Finance, and the Deputy Minister responsible for scientific research and matters concerned with atomic energy and outer-space,

Considering decree No. 65-586 of July 15, 1965, relating to the organization of the Ministry of Industry,

Decrees:

Article 1

Any agreement or additional clause to an agreement contracted with an individual or with a legal entity whose domicile or headquarters is located abroad and which pertains to the assignment or granting, to an individual or to a legal entity whose domicile or headquarters is located in France, of industrial property rights and any intellectual elements relating to scientific and technical assistance in any form — including know-how and engineering, in particular — must be filed with the Minister of Industry by the contracting party whose domicile or headquarters is in France at least two months before it is applied.

Article 2

The Minister of Industry shall undertake an examination of the agreement, giving special attention to the technical and financial clauses and to the terms of implementation thereof.

The Minister of Industry, having regard to the information at his disposal on the branch of activity in question, shall study with the interested party whether the possibilities of French technology have been taken into consideration.

The contracting party shall advise the Minister of Industry of any changes he might conceivably make in the agreement as a result of such study.

Within a period of forty days from the date on which the agreement is received, the Minister of Industry shall inform the contracting party of his opinion on the final text of the agreement. This opinion shall be communicated to the Minister of Economy and Finance and to the Deputy Minister responsible for scientific research and matters concerned with atomic energy and outer-space.

Article 3

In respect of each agreement referred to in Article 1, including agreements in force at the date on which this decree is published, a statement of expenditure or income, corresponding to the implementation of the agreement during the course of the preceding year, shall be sent to the Ministry of Industry at the instigation of the interested industrialists.

¹⁾ BIRPI translation.

Article 4

Documents filed with the Administration pursuant to this decree shall, in the view of the Administration, be considered confidential.

Article 5

An order by the Minister of Industry shall establish the terms of application of this decree.

Article 6

The Minister of Industry, the Minister of Economy and Finance, and the Deputy Minister responsible for scientific research and matters concerned with atomic energy and outer-space, shall be responsible, each one in so far as he is concerned, for the implementation of this decree, which shall be published in the *Journal Officiel* of the French Republic.

III

Decree

Concerning the Fees and Charges Collected in Respect of Industrial Property

(No. 67-762, of September 1, 1967) ¹⁾

The Prime Minister,

On the report of the Minister of Industry, the Keeper of the Seals and Minister of Justice, the Minister of Economy and Finance, and the Minister of State responsible for overseas departments and territories,

Considering the amended Law of July 5, 1844, on patents;

Considering ordinance No. 59-2 of January 2, 1959 on fundamental law concerning the finance Laws and Article 5 thereof in particular;

Considering decree No. 65-622 of July 27, 1965 ²⁾ concerning the fees and charges collected in respect of industrial property;

The Council of State (Department of Public Works) having been heard,

Decrees:

Article 1

The second paragraph of Article 6^{bis} of the Law of July 5, 1844, last amended by Article 3 of the above-mentioned decree of July 27, 1965, is replaced by the following provisions:

"An applicant intending to avail himself of more than one right of priority in respect of a single application shall observe the above provisions with regard to each such right.

"Any right of priority claimed is subject to the payment of a fee reimbursable in the event of rejection or withdrawal of the application; evidence that the fee has been paid must be produced within the above-mentioned six-month period."

Article 2

This decree applies to overseas territories.

Article 3

The Minister of Industry, the Keeper of the Seals and Minister of Justice, the Minister of Economy and Finance, and the Minister of State responsible for overseas departments and territories, are entrusted, each one in so far as he is concerned, with the execution of this decree, which shall be published in the *Journal Officiel* of the French Republic.

HUNGARY

Government Decree

Concerning the Functions and Jurisdiction of the National Office of Inventions

(No. 2048/1967, of August 20, 1967) ¹⁾

The Hungarian Revolutionary Worker-Peasant Government hereby defines the functions and jurisdiction of the National Office of Inventions ²⁾ as follows:

I. — The National Office of Inventions is the administrative organ, with country-wide jurisdiction, for matters of protection of industrial property and the central State organ for policy directives in these matters.

II. — The President of the National Office of Inventions shall watch over the interests of industrial property protection in the planning of the economic policy of the Government and, in collaboration with the Ministers concerned (and other directors of organs having country-wide jurisdiction) as well as other competent organs, shall fix the policy of industrial property protection.

III. — As administrative organ, the National Office of Inventions shall in particular:

- (a) undertake the examination of applications relating to inventions, grant and register patents, undertake the examination of marks, industrial designs and appellations of origin, and register and record the same;
- (b) exercise professional control over the social organs in the field of industrial property protection and, in relation to patent agents, discharge functions determined by separate laws and regulations;
- (c) publish an official periodical on industrial property.

IV. — In the field of State central policy-making concerning industrial property protection, the National Office of Inventions shall in particular:

- (a) ensure respect of the laws and regulations concerning industrial property protection and control the effect of economic incentives on activities connected with the protection of industrial property, and initiate laws, regulations and governmental instructions, as required, on the basis of scientific analyses and practical evaluations;

¹⁾ BIRPI translation.

²⁾ See *Industrial Property*, November 1965, p. 247.

¹⁾ Translated from the Hungarian original as published in *Országos Találmányi Hivatal*. — BIRPI translation.

²⁾ In Hungarian: *Országos Találmányi Hivatal*.

- (b) develop international relations in the field of industrial property, suggest — within its sphere of jurisdiction — accession to international treaties concerning industrial property protection, and make proposals in that connection;
- (c) observe the activities of other States in the field of industrial property protection and, after arriving at the necessary conclusions, make the appropriate proposals to the competent organs;
- (d) provide, in collaboration with the trade unions and according to separate laws and regulations, the direction of central policy and propaganda concerning the movement for innovations and inventions;
- (e) accomplish the tasks of a central documentation and information service in respect of industrial property protection, coordinate activities in that field, and direct and develop, by its own means, propaganda concerning industrial property protection;
- (f) organize and direct, at all levels, professional training, continuing training, and the conducting of examinations in the field of industrial property protection;
- (g) assist, in collaboration with the Ministries concerned, in the organization and development of the activities of enterprises in the field of industrial property protection, and in the organization of the documentation and information branches of each of the enterprises;
- (h) carry out specific research assignments in the field of industrial property protection at the request of the organs directing the national economy, and, on demand, furnish services in the field of documentation and information concerning industrial property protection.

V. — The organization and administrative regulations of the National Office of Inventions shall be established by the President of the Office.

Letter from Hungary *)

Dr. Alexandre VIDA, Lawyer, Budapest

BOOK REVIEWS

Internationaler Marken- und Herkunftsschutz [International Protection of Marks and Indications of Source], by *Willy Miosga*. One volume of 534 pages. Wila Verlag für Wirtschaftswerbung Wilhelm Lampl, Munich, 1967.

In this age of increasing international trade, international protection in respect of marks, indications of source, and appellations of origin is gaining in importance every day, with the result that users, as well as theorists, are obliged to make a detailed study of the international treaties concerned and to master them. The work of Mr. Miosga does just that. It deals precisely with international protection in the above three areas of industrial property; it sets forth, explains and comments, in a manner both comprehensive as to subject matter and concise as to form, the five basic multilateral treaties on the subject, namely: the Paris Convention, the Madrid Agreement on marks, the Nice Agreement on the classification of goods and services to which marks are applied, the Madrid Agreement on indications of source, and the Lisbon Agreement on appellations of origin.

The main elements of the book are the following:

— A chapter devoted to the Paris Convention. This chapter is composed of an introduction followed by the text of the Convention set out in such a way that each article is accompanied by the clarifications and commentaries required for it to be properly understood. An example of this is the commentary on the protection of marks in their original form ("telle quelle" marks) — as provided for in Article 6quinquies of the Convention — which goes into the pertinent doctrine and case law with extreme thoroughness.

— A chapter dealing with the Madrid Agreement on marks. The author uses the above method of giving an introduction followed by the text of each article and the commentary relating to it. He then adds the text of the Rules pertaining to the Agreement.

— A chapter concerning the Nice Agreement. The same method is again used. This chapter also includes the list of classes and the explanatory notes.

— A chapter on the international protection of indications of source and appellations of origin. The author makes a clear distinction between these two notions, which are sometimes confused, and indicates the multilateral treaties concerned as well as the bilateral treaties to which the German Federal Republic is a party. He further sets forth the state of German legislation in the matter.

— A chapter on the Madrid Agreement concerning indications of source and a chapter on the Lisbon Agreement concerning appellations of origin. The method used in these chapters is the same as that used in respect of the preceding Agreements. The commentaries are of special interest to German-speaking readers inasmuch as, in German legal practice, the distinction has recently been made between the two notions, primarily as a result of the bilateral treaties that have been concluded in the last few years between the German Federal Republic and certain countries where such a distinction was already established in legislation or case law.

The foregoing lines are inadequate to describe the immense value of this work. Due to lack of space, we shall have to be content with pointing out that this is one of the all-too-rare works which gives a practical commentary according to the classic German method of exegesis article by article. The book is therefore essential not only for the specialist in industrial property but also for the practitioner and user of these distinctive signs known as marks, indications of source, and appellations of origin.

CALENDAR

Meetings of BIRPI

Date and Place	Title	Object	Invitations to Participate	Observers Invited
1968				
March 25 to 29 Geneva	Working Group — Patent Cooperation Treaty (PCT)	Questions concerning searching, etc.	To be announced later	To be announced later
May 27 to 29 Geneva	Committee of Experts	Classification of Figurative Elements of Marks	All Member States of the Paris Union	To be announced later
June 17 to 21 Geneva	Working Group — Patent Cooperation Treaty (PCT)	Questions concerning formalities, etc.	To be announced later	To be announced later
September 24 to 27 Geneva	Interunion Coordination Committee (6th Session)	Program and Budget of BIRPI	To be announced later	To be announced later
September 24 to 27 Geneva	Executive Committee of the Conference of Representatives of the Paris Union (4th Session)	Program and Budget (Paris Union) for 1969	To be announced later	To be announced later
October 2 to 8 Locarno	Diplomatic Conference	Adoption of a Special Agreement concerning the International Classification of Industrial Designs	All Member States of the Paris Union	To be announced later
November 4 to 12 Geneva	Committee of Experts — Patent Cooperation Treaty (PCT)	New Draft Treaty	To be announced later	To be announced later

Meetings of Other International Organizations Concerned with Intellectual Property

Place	Date	Organization	Title
1968			
Strasbourg	January 8 to 12	Council of Europe	Working Party of the Committee of Experts on Patents
Buenos Aires	April 15 to 19	International Association for the Protection of Industrial Property (IAPIP)	Presidents' Conference
Munich	April 22 to 26	Committee for International Cooperation in Information Retrieval among Examining Patent Offices (ICIREPAT)	Advisory Board for Cooperative Systems — Standing Committees I and II
Strasbourg	May 13 to 17	Council of Europe	Working Party of the Committee of Experts on Patents
Amsterdam	June 9 to 15	International Publishers Association (IPA)	Congress
Vienna	June 24 to 29	International Confederation of Societies of Authors and Composers (CISAC)	Congress
Tokyo	October 21 to November 1	Committee for International Cooperation in Information Retrieval among Examining Patent Offices (ICIREPAT)	8th Annual Meeting
Lima	December 2 to 6	Inter-American Association of Industrial Property (ASIPI)	Congress

* The figures appearing in parentheses in the columns headed *Foreigners* indicate the number of instances in which priority was claimed under Article 4 of the Paris Convention. Differentiation between nationals and foreigners is, in general, based on the residence of the applicant rather than on nationality.

** See Chart II for additional information as to some countries. It should be noted that no fees are required to maintain patents in force in Canada and the USA and Cyprus.

¹ The first line of figures relate to patents only; the second line of figures relate to inventors' certificates.

² Period: April 1, 1966 to March 31, 1967.

³ This figure includes special patents for medicaments.

* Les chiffres entre parenthèses dans la colonne *Etrangers* indiquent le nombre de fois où le droit de priorité, prévu à l'article 4 de la Convention de Paris, a été revendiqué. La différenciation entre nationaux et étrangers est, en général, fondée plutôt sur la résidence du déposant que sur sa nationalité.

** Voir Tableau II pour des renseignements supplémentaires pour certains pays. Il n'y a pas de taxes exigibles au Canada, à Chypre ni aux Etats-Unis d'Amérique pour le maintien en vigueur des brevets.

¹ La première ligne de chiffres concerne uniquement les brevets; la seconde ligne de chiffres concerne les certificats d'inventeurs.

² Période: 1^{er} avril 1966 au 31 mars 1967.

³ Ces chiffres comprennent les brevets spéciaux de médicaments.

	—	25	25	—	25	25	118

⁴ This figure includes grants on applications filed during 1964 and 1965, but sealed in 1966.

⁵ Patents of addition are included in the total figures.

⁶ Figures for Rumania include both inventors' certificates and patents. Of the 1322 national applications, 1297 were in respect of inventors' certificates and of the 725 foreign applications, 22 were in respect of inventors' certificates.

⁷ Including Liechtenstein.

⁸ Figures in the columns relate to complete specifications filed in the U.K. Applications filed by nationals: 24 848; applications filed by foreigners: 33 623; total: 58 471.

⁴ Ce chiffre comprend les délivrances de brevets demandés en 1964 et 1965 mais cachetés en 1966.

⁵ Les brevets additionnels sont compris dans le total.

⁶ Les chiffres pour la Roumanie comprennent les certificats d'inventeurs et les brevets. Des 1322 demandes de nationaux, 1297 concernent des certificats d'inventeurs et des 725 demandes d'étrangers, 22 concernent des certificats d'inventeurs.

⁷ Y compris le Liechtenstein.

⁸ Les chiffres indiqués dans les colonnes se rapportent aux descriptions complètes déposées au Royaume-Uni. Demandes déposées par des nationaux: 24 848; demandes déposées par des étrangers: 33 623; total: 58 471.

General Remarks: Figures in ordinary type relate to applications, whereas figures in heavy type relate to patents granted.

* Figures relating to nationals are recorded in Chart 1a.

¹ Patents are only filed in Indonesia pending the coming into force of the Indonesian Patent Act.

² Patents are not originally issued in Kenya but only registered on the basis of patents previously granted in the United Kingdom.

Remarques générales: Les chiffres en caractères ordinaires s'appliquent aux demandes tandis que les chiffres en gras s'appliquent aux délivrances de brevets.

* Les chiffres concernant les nationaux sont indiqués dans le Tableau 1a.

¹ Les brevets ne peuvent être que déposés en Indonésie, la Loi sur les brevets n'étant pas encore en vigueur.

² Les brevets ne sont pas délivrés au Kenya mais seulement enregistrés sur la base de brevets déjà délivrés au Royaume-Uni.

**Demandes de brevets déposées par des étrangers et brevets délivrés
à des étrangers, en 1966, répartis selon leur pays d'origine**

¹ Patents kept in force after publication, not application. Figures are valid for period ending September 30, 1966 and include 1695 patents of addition.

² Figures include special patents for medicaments but not certificates of addition.

³ Prolongation due to special laws relating to certain applications filed up to and including 1948.

⁴ Patents kept in force to the end of 1966 after the first to the 18th year of granting.

⁵ Renewal fees are not payable until the commencement of the 5th year. Figures exclude approximately 450 patents of addition on which no renewal fees are payable but include 2800 fees paid in advance of the current year.

⁶ Figures relating to patents extended beyond their normal term due to special circumstances.

¹ Brevets maintenus en vigueur après la publication, et non après le dépôt de la demande. Les chiffres sont valables pour la période se terminant le 30 septembre 1966 et comprennent 1695 brevets additionnels.

² Les chiffres comprennent les brevets spéciaux de médicaments, mais non les certificats d'addition.

³ Prolongations dues à des lois spéciales relatives à certaines demandes déposées jusqu'en 1948 y compris.

⁴ Brevets maintenus en vigueur à la fin de 1966 de la première à la dix-huitième année, après délivrance.

⁵ Les taxes de renouvellement ne sont pas exigées avant le commencement de la cinquième année. Ces chiffres ne comprennent pas environ 450 brevets additionnels sur lesquels aucune taxe de renouvellement n'est exigible, mais comprennent 2800 taxes payées à l'avance au cours de l'année 1965.

⁶ Ces chiffres s'appliquent aux brevets prolongés au-delà de leur terme normal pour des raisons spéciales.

¹ Figures for Belgium relate to number of patents filed.² The first line of figures relate to patents only; the second line of figures relate to inventors' certificates.³ One patent may appear in more than one class. Figures include certificates of addition and special patents for medicaments.⁴ Figures relate to complete specifications accepted in 1966. Figures are not available for patents granted broken down according to the above headings; of the above total, no more than approximately 650 are not eventually granted as patents.⁵ The first line of figures relate to patents only; the second line of figures relate to inventors' certificates.¹ Les chiffres pour la Belgique s'appliquent au nombre de brevets déposés.² La première ligne de chiffres concerne uniquement les brevets; la seconde ligne de chiffres concerne les certificats d'inventeurs.³ Un brevet peut être classé dans une ou plusieurs classes. Ces chiffres comprennent les certificats d'addition et les brevets spéciaux de médicaments.⁴ Ces chiffres concernent des descriptions complètes acceptées en 1966. Les chiffres pour les brevets délivrés, selon la classification ci-dessus ne sont pas disponibles; du nombre de descriptions complètes, 650 environ n'aboutissent pas à la délivrance de brevets.⁵ La première ligne de chiffres concerne uniquement les brevets; la seconde ligne de chiffres concerne les certificats d'inventeurs.

General Remark : Figures in ordinary type relate to applications, whereas figures in heavy type relate to registrations granted.

* Figures relating to nationals are recorded in Chart 1a.

¹ Period commencing April 1, 1966 and ending March 31, 1967.

Remarque générale: Les chiffres en caractères ordinaires s'appliquent aux demandes, tandis que les chiffres en gras s'appliquent aux enregistrements accordés.

* Les chiffres concernant les nationaux sont indiqués dans le Tableau 1a.

¹ Période commençant le 1er avril 1966 et se terminant le 31 mars 1967.

*Demandes déposées par des étrangers, et enregistrements accordés
à des étrangers au cours de 1966, répartis selon leur pays d'origine*

* General remark: The figures appearing in parentheses in the columns headed "Foreigners" indicate the number of instances in which priority was claimed under Article 4 of the Paris Convention.

¹ One application may cover up to 50 designs.

² Designs in Sweden may only relate to metal goods.

³ Venezuelan Law makes a distinction between two-dimensional and three-dimensional designs.

* Remarque générale: Les chiffres entre parenthèses dans la colonne Etrangers indiquent le nombre de fois où le droit de priorité, prévu à l'article 4 de la Convention de Paris, a été revendiqué.

¹ Une demande peut comporter jusqu'à 50 dessins ou modèles.

² En Suède, les modèles peuvent seulement être déposés pour des produits en métal.

³ La législation du Venezuela fait une distinction entre les dessins (à deux dimensions) et les modèles (à trois dimensions).
