

# Advisory Board

Since 2011, the Advisory Board has played a valued role in advising on the strategic direction of the Global Innovation Index (GII). Its mission is to emphasize the critical role innovation plays in economic and social development and to assist in the dissemination of GII findings relevant to each of the world's economies and regions. Comprising international policymakers, thought-leaders and corporate executives, Advisory Board members are selected from diverse geographical and institutional backgrounds and serve in a personal capacity. We express our appreciation to all Advisory Board members for their continued support and collaboration.
