Article 1

(1) The contracting States constitute a Special Union for the international deposit of industrial designs.

(2) Only States members of the International Union for the Protection of Industrial Property may become party to this Agreement.

Article 2

For the purposes of this Agreement:

“1925 Agreement” shall mean the Hague Agreement concerning the International Deposit of Industrial Designs of November 6, 1925;

“1934 Agreement” shall mean the Hague Agreement concerning the International Deposit of Industrial Designs of November 6, 1925, as revised at London on June 2, 1934;

“this Agreement” or “the present Agreement” shall mean the Hague Agreement concerning the International Deposit of Industrial Designs as established by the present Act;

“Regulations” shall mean the Regulations for carrying out this Agreement;

“International Bureau” shall mean the International Bureau of Intellectual Property;

“international deposit” shall mean a deposit made at the International Bureau;

“national deposit” shall mean a deposit made at the national Office of a contracting State;

“multiple deposit” shall mean a deposit including several designs;

“State of origin of an international deposit” shall mean the contracting State in which the applicant has a real and effective industrial or commercial establishment or, if the applicant has such establishments in several contracting States, the contracting State which he has indicated in his application; if the applicant has no such establishment in any contracting State, the contracting State in which he has his domicile; if he has no domicile in a contracting State, the contracting State of which he is a national;

“State having a novelty examination” shall mean a contracting State the domestic law of which provides for a system which involves a preliminary *ex officio* search and examination by its national Office as to the novelty of each deposited design.

Article 3

Nationals of contracting States and persons who, without being nationals of any contracting State, are domiciled or have a real and effective industrial or commercial establishment in the territory of a contracting State may deposit designs at the International Bureau.

Article 4

(1) International deposit may be made at the International Bureau:

1. direct, or
2. through the intermediary of the national Office of a contracting State if the law of that State so permits.

(2) The domestic law of any contracting State may require that international deposits of which it is deemed to be the State of origin shall be made through its national Office. Non-compliance with this requirement shall not prejudice the effects of the international deposit in the other contracting States.

Article 5

(1) The international deposit shall consist of an application and one or more photographs or other graphic representations of the design, and shall involve payment of the fees prescribed by the Regulations.

(2) The application shall contain:

1. a list of the contracting States in which the applicant requests that the international deposit shall have effect;
2. the designation of the article or articles in which it is intended to incorporate the design;
3. if the applicant wishes to claim the priority provided for in Article 9, an indication of the date, the State, and the number of the deposit giving rise to the right of priority;
4. such other particulars as the Regulations may prescribe.

(3) (a) In addition, the application may contain:

1. a short description of characteristic features of the design;
2. a declaration as to who is the true creator of the design;
3. a request for deferment of publication as provided in Article 6(4).

(b) The application may be accompanied also by samples or models of the article or articles incorporating the design.

(4) A multiple deposit may include several designs intended to be incorporated in articles included in the same class of the International Design Classification referred to in Article 21(2), item 4.

Article 6

(1) The International Bureau shall maintain the International Design Register and shall register international deposits therein.

(2) The international deposit shall be deemed to have been made on the date on which the International Bureau received the application in due form, the fees payable with the application, and the photograph or photographs or other graphic representations of the design, or, if the International Bureau received them on different dates, on the last of these dates. The registration shall bear the same date.

(3) (a) For each international deposit, the International Bureau shall publish in a periodical bulletin:

1. reproductions in black and white or, at the request of the applicant, in color of the deposited photographs or other graphic representations;
2. the date of the international deposit;
3. the particulars prescribed by the Regulations.

(b) The International Bureau shall send the periodical bulletin to the national Offices as soon as possible.

(4) (a) The publication referred to in paragraph (3)(a) shall, at the request of the applicant, be deferred for such period as he may request. The said period may not exceed twelve months from the date of the international deposit. However, if priority is claimed, the starting date of such period shall be the priority date.

(b) At any time during the period referred to in subparagraph (a), the applicant may request immediate publication or may withdraw his deposit. Withdrawal of the deposit may be limited to one or a few only of the contracting States and, in the case of a multiple deposit, to some only of the designs included therein.

(c) If the applicant fails to pay within the proper time the fees payable before the expiration of the period referred to in subparagraph (a), the International Bureau shall cancel the deposit and shall not effect the publication referred to in paragraph (3)(a).

(d) Until the expiration of the period referred to in subparagraph (a), the International Bureau shall keep in confidence the registration of deposits made subject to deferred publication, and the public shall have no access to any documents or articles concerning such deposits. These provisions shall apply without limitation as to time if the applicant has withdrawn his deposit before the expiration of the said period.

(5) Except as provided in paragraph (4), the Register and all documents and articles filed with the International Bureau shall be open to inspection by the public.

Article 7

(1) (a) A deposit registered at the International Bureau shall have the same effect in each of the contracting States designated by the applicant in his application as if all the formalities required by the domestic law for the grant of protection had been complied with by the applicant and as if all administrative acts required to that end had been accomplished by the Office of such State.

(b) Subject to the provisions of Article 11, the protection of designs the deposit of which has been registered at the International Bureau is governed in each contracting State by those provisions of the domestic law which are applicable in that State to designs for which protection has been claimed on the basis of a national deposit and in respect of which all formalities and administrative acts have been complied with and accomplished.

(2) An international deposit shall have no effect in the State of origin if the laws of that State so provide.

Article 8

(1) Notwithstanding the provisions of Article 7, the national Office of a contracting State whose domestic law provides that the national Office may, on the basis of an administrative *ex officio* examination or pursuant to an opposition by a third party, refuse protection shall, in case of refusal, notify the International Bureau within six months that the design does not meet the requirements of its domestic law other than the formalities and administrative acts referred to in Article 7(1). If no such refusal is notified within a period of six months the international deposit shall become effective in that State as from the date of that deposit. However, in a contracting State having a novelty examination, the international deposit, while retaining its priority, shall, if no refusal is notified within a period of six months, become effective from the expiration of the said period unless the domestic law provides for an earlier date for deposits made with its national Office.

(2) The period of six months referred to in paragraph (1) shall be computed from the date on which the national Office receives the issue of the periodical bulletin in which the registration of the international deposit has been published. The national Office shall communicate that date to any person so requesting.

(3) The applicant shall have the same remedies against the refusal of the national Office referred to in paragraph (1) as if he had deposited his design in that Office; in any case, the refusal shall be subject to a request for re-examination or appeal. Notification of such refusal shall indicate:

1. the reasons for which it has been found that the design does not meet the requirements of the domestic law;
2. the date referred to in paragraph (2);
3. the time allowed for a request for re-examination or appeal;
4. the authority to which such request or appeal may be addressed.

(4) (a) The national Office of a contracting State whose domestic law contains provisions of the kind referred to in paragraph (1) requiring a declaration as to who is the true creator of the design or a description of the

design may provide that, upon request and within a period of not less than sixty days from the dispatch of such a request by the said Office, the applicant shall file in the language of the application filed with the International Bureau:

1. a declaration as to who is the true creator of the design;
2. a short description emphasizing the essential characteristic features of the design as shown by the photographs or other graphic representations.

(b) No fees shall be charged by a national Office in connection with the filing of such declarations or descriptions, or for their possible publication by that national Office.

(5) *(a)* Any contracting State whose domestic law contains provisions of the kind referred to in paragraph (1) shall notify the International Bureau accordingly.

(b) If, under its legislation, a contracting State has several systems for the protection of designs one of which provides for novelty examination, the provisions of this Agreement concerning States having a novelty examination shall apply only to the said system.

Article 9

If the international deposit of a design is made within six months of the first deposit of the same design in a State member of the International Union for the Protection of Industrial Property, and if priority is claimed for the international deposit, the priority date shall be that of the first deposit.

Article 10

(1) An international deposit may be renewed every five years by payment only, during the last year of each period of five years, of the renewal fees prescribed by the Regulations.

(2) Subject to the payment of a surcharge fixed by the Regulations, a period of grace of six months shall be granted for renewal of the international deposit.

(3) At the time of paying the renewal fees, the international deposit number must be indicated and also, if renewal is not to be effected for all the contracting States for which the deposit is about to expire, those of the contracting States for which the renewal is to be effected.

(4) Renewal may be limited to some only of the designs included in a multiple deposit.

(5) The International Bureau shall record and publish renewals.

Article 11

(1) (a) The term of protection granted by a contracting State to designs which have been the subject of an international deposit shall not be less than:

1. ten years from the date of the international deposit if the deposit has been renewed;
2. five years from the date of the international deposit in the absence of renewal.

(b) However, if, under the provisions of the domestic law of a contracting State having a novelty examination, protection commences at a date later than that of the international deposit, the minimum terms provided for in subparagraph (a) shall be computed from the date at which protection commences in that State. The fact that the international deposit is not renewed or is renewed only once shall in no way affect the minimum terms of protection thus defined.

(2) If the domestic law of a contracting State provides, in respect of designs which have been the subject of a national deposit, for protection whose duration, with or without renewal, is longer than ten years, protection of the same duration shall, on the basis of the international deposit and its renewals, be granted in that State to designs which have been the subject of an international deposit.

(3) A contracting State may, under its domestic law, limit the term of protection of designs which have been the subject of an international deposit to the terms provided for in paragraph (1).

(4) Subject to the provisions of paragraph (1)(b), protection in a contracting State shall terminate at the date of expiration of the international deposit, unless the domestic law of that State provides that protection shall continue after the date of expiration of the international deposit.

Article 12

(1) The International Bureau shall record and publish changes affecting ownership of a design which is the subject of an international deposit in force. It is understood that transfer of ownership may be limited to the rights arising from the international deposit in one or a few only of the contracting States and, in the case of a multiple deposit, to some only of the designs included therein.

(2) The recording referred to in paragraph (1) shall have the same effect as if it had been made in the national Offices of the contracting States.

Article 13

(1) The owner of an international deposit may, by means of a declaration addressed to the International Bureau, renounce his rights in respect of all or some only of the contracting States and, in the case of a multiple deposit, in respect of some only of the designs included therein.

(2) The International Bureau shall record and publish such declaration.

Article 14

(1) No contracting State may, as a condition of recognition of the right to protection, require that the article incorporating the design bear a sign or notice concerning the deposit of the design.

(2) If the domestic law of a contracting State provides for a notice on the article for any other purpose, such State shall regard such requirement as satisfied if all the articles offered to the public with the authorization of the owner of the rights in the design, or the tags attached to such articles, bear the international design notice.

(3) The international design notice shall consist of the symbol \textcircled{D} (a capital D in a circle) accompanied by:

1. the year of the international deposit and the name, or the usual abbreviation of the name, of the depositor, or
2. the number of the international deposit.

(4) The mere appearance of the international design notice on the article or the tags shall in no case be interpreted as implying a waiver of protection by virtue of copyright or on any other grounds, whenever, in the absence of such notice, such protection may be claimed.

Article 15

(1) The fees prescribed by the Regulations shall consist of:

1. fees for the International Bureau;
2. fees for the contracting States designated by the applicant, namely:

(a) a fee for each contracting State;

(b) a fee for each contracting State having a novelty examination and requiring the payment of a fee for such examination.

(2) Any fees paid in respect of one and the same deposit for a contracting State under paragraph (1), item 2(a), shall be deducted from the amount of the fee referred to in paragraph (1), item 2(b), if the latter fee becomes payable for the same State.

Article 16

(1) The fees for contracting States referred to in Article 15(1), item 2, shall be collected by the International Bureau and paid over annually to the contracting States designated by the applicant.

(2) (a) Any contracting State may notify the International Bureau that it waives its right to the supplementary fees referred to in Article 15(1), item 2(a), in respect of international deposits of which any other contracting State making a similar waiver is deemed to be the State of origin.

(b) Such State may make a similar waiver in respect of international deposits of which it is itself deemed to be the State of origin.

Article 17

The Regulations shall govern the details concerning the implementation of this Agreement and in particular:

1. the languages and the number of copies in which the application for deposit must be filed, and the data to be supplied in the application;
2. the amounts and the dates and method of payment of the fees for the International Bureau and for the States, including the limits imposed on the fee for contracting States having a novelty examination;
3. the number, size, and other characteristics, of the photographs or other graphic representations of each design deposited;
4. the length of the description of characteristic features of the design;
5. the limits within which and conditions under which samples or models of the articles incorporating the design may accompany the application;
6. the number of designs that may be included in a multiple deposit and other conditions governing multiple deposits;
7. all matters relating to the publication and distribution of the periodical bulletin referred to in Article 6(3)(a), including the number of copies of the bulletin which shall be given free of charge to the national Offices and the number of copies which may be sold at a reduced price to such Offices;
8. the procedure for notification by contracting States of any refusal provided for under Article 8(1), and the procedure for communication and publication of such refusals by the International Bureau;
9. the conditions for recording and publication by the International Bureau of the changes affecting the ownership of a design referred to in Article 12(1), and for the renunciations referred to in Article 13;
10. the disposal of documents and articles concerning deposits for which the possibility of renewal has ceased to exist.

Article 18

The provisions of this Agreement shall not preclude the making of a claim to the benefit of any greater protection which may be granted by domestic legislation in a contracting State, nor shall they affect in any way the protection accorded to works of art and works of applied art by international copyright treaties and conventions.

(2) Thereafter, the deposit of instruments of ratification and accession shall be notified to the contracting States by the Director General. Such ratifications and accessions shall become effective one month after the date of the dispatch of such notification unless, in the case of accession, a later date is indicated in the instrument of accession.

Article 27

Any contracting State may at any time notify the Director General that this Agreement shall also apply to all or part of those territories for the external relations of which it is responsible. Thereupon, the Director General shall communicate such notification to the contracting States and the Agreement shall apply also to the said territories one month after the dispatch of the communication by the Director General to the contracting States unless a later date is indicated in the notification.

At the time of signing or depositing its instrument of accession, it may declare that it does not consider itself bound by the provisions of paragraphs (2)(a) or (2)(b) of the Protocol; in such case, the other States party to the Protocol shall be under no obligation to apply, in their relations with that State, the provisions mentioned in such declaration. The provisions of Articles 23 to 28 inclusive shall apply by analogy.

Article 33

This Act shall be signed in a single copy which shall be deposited in the archives of the Government of the Netherlands. A certified copy shall be transmitted by the latter to the Government of each State which has signed or acceded to this Agreement.

(4)³ [*Withdrawal of Refusal*] Any refusal may be withdrawn, in part or in whole, at any time by the Office that communicated it.

³ When adopting Article 12(4), Article 14(2)(b) and Rule 18(4), the Diplomatic Conference understood that a withdrawal of refusal by an Office that has communicated a notification of refusal may take the form of a statement to the effect that the Office concerned has decided to accept the effects of the international registration in respect of the industrial designs, or some of the industrial designs, to which the notification of refusal related. It was also understood that an Office may, within the period allowed for communicating a notification of refusal, send a statement to the effect that it has decided to accept the effects of the international registration even where it has not communicated such a notification of refusal.

Article 13
Special Requirements Concerning Unity of Design

(1) [*Notification of Special Requirements*] Any Contracting Party whose law, at the time it becomes party to this Act, requires that designs that are the subject of the same application conform to a requirement of unity of design, unity of production or unity of use, or belong to the same set or composition of items, or that only one independent and distinct design may be claimed in a single application, may, in a declaration, notify the Director General accordingly. However, no such declaration shall affect the right of an applicant to include two or more industrial designs in an international application in accordance with Article 5(4), even if the application designates the Contracting Party that has made the declaration.

(2) [*Effect of Declaration*] Any such declaration shall enable the Office of the Contracting Party that has made it to refuse the effects of the international registration pursuant to Article 12(1) pending compliance with the requirement notified by that Contracting Party.

(3) [*Further Fees Payable on Division of Registration*] Where, following a notification of refusal in accordance with paragraph (2), an international registration is divided before the Office concerned in order to overcome a ground of refusal stated in the notification, that Office shall be entitled to charge a fee in respect of each additional international application that would have been necessary in order to avoid that ground of refusal.

Article 14
Effects of the International Registration

(1) [*Effect as Application Under Applicable Law*] The international registration shall, from the date of the international registration, have at least the same effect in each designated Contracting Party as a regularly-filed application for the grant of protection of the industrial design under the law of that Contracting Party.

(2) [*Effect as Grant of Protection Under Applicable Law*] (a) In each designated Contracting Party the Office of which has not communicated a refusal in accordance with Article 12, the international registration shall have the same effect as a grant of protection for the industrial design under the law

of that Contracting Party at the latest from the date of expiration of the period allowed for it to communicate a refusal or, where a Contracting Party has made a corresponding declaration under the Regulations, at the latest at the time specified in that declaration.

(b)⁴ Where the Office of a designated Contracting Party has communicated a refusal and has subsequently withdrawn, in part or in whole, that refusal, the international registration shall, to the extent that the refusal is withdrawn, have the same effect in that Contracting Party as a grant of protection for the industrial design under the law of the said Contracting Party at the latest from the date on which the refusal was withdrawn.

(c) The effect given to the international registration under this paragraph shall apply to the industrial design or designs that are the subject of that registration as received from the International Bureau by the designated Office or, where applicable, as amended in the procedure before that Office.

(3) [*Declaration Concerning Effect of Designation of Applicant's Contracting Party*] (a) Any Contracting Party whose Office is an Examining Office may, in a declaration, notify the Director General that, where it is the applicant's Contracting Party, the designation of that Contracting Party in an international registration shall have no effect.

(b) Where a Contracting Party having made the declaration referred to in subparagraph (a) is indicated in an international application both as the applicant's Contracting Party and as a designated Contracting Party, the International Bureau shall disregard the designation of that Contracting Party.

Article 15 *Invalidation*

(1) [*Requirement of Opportunity of Defense*] Invalidation, by the competent authorities of a designated Contracting Party, of the effects, in part or in whole, in the territory of that Contracting Party, of the international registration may not be pronounced without the holder having, in good time, been afforded the opportunity of defending his rights.

⁴ See footnote relating to Article 12(4).

(2) [*Notification of Invalidation*] The Office of the Contracting Party in whose territory the effects of the international registration have been invalidated shall, where it is aware of the invalidation, notify it to the International Bureau.

Article 16

Concerning International Registrations

(1) [*Recording of Changes and Other Matters*] The International Bureau shall, as prescribed, record in the International Register

(i) any change in ownership of the international registration, in respect of any or all of the designated Contracting Parties and in respect of any or all of the industrial designs that are the subject of the international registration, provided that the new owner is entitled to file an international application under Article 3,

(ii) any change in the name or address of the holder,

(iii) the appointment of a representative of the applicant or holder and any other relevant fact concerning such representative,

(iv) any renunciation, by the holder, of the international registration, in respect of any or all of the designated Contracting Parties,

(v) any limitation, by the holder, of the international registration, in respect of any or all of the designated Contracting Parties, to one or some of the industrial designs that are the subject of the international registration,

(vi) any invalidation, by the competent authorities of a designated Contracting Party, of the effects, in the territory of that Contracting Party, of the international registration in respect of any or all of the industrial designs that are the subject of the international registration,

(vii) any other relevant fact, identified in the Regulations, concerning the rights in any or all of the industrial designs that are the subject of the international registration.

(2) [*Effect of Recording in International Register*] Any recording referred to in items (i), (ii), (iv), (v), (vi) and (vii) of paragraph (1) shall have the same effect as if it had been made in the Register of the Office of each of the Contracting Parties concerned, except that a Contracting Party may, in a declaration, notify the Director General that a recording referred to in item (i) of paragraph (1) shall not have that effect in that Contracting Party until the Office of that Contracting Party has received the statements or documents specified in that declaration.

(3) [*Fees*] Any recording made under paragraph (1) may be subject to the payment of a fee.

(4) [*Publication*] The International Bureau shall publish a notice concerning any recording made under paragraph (1). It shall send a copy of the publication of the notice to the Office of each of the Contracting Parties concerned.

Article 17

Initial Term and Renewal of the International Registration and Duration of Protection

(1) [*Initial Term of the International Registration*] The international registration shall be effected for an initial term of five years counted from the date of the international registration.

(2) [*Renewal of the International Registration*] The international registration may be renewed for additional terms of five years, in accordance with the prescribed procedure and subject to the payment of the prescribed fees.

(3) [*Duration of Protection in Designated Contracting Parties*] (a) Provided that the international registration is renewed, and subject to subparagraph (b), the duration of protection shall, in each of the designated Contracting Parties, be 15 years counted from the date of the international registration.

(b) Where the law of a designated Contracting Party provides for a duration of protection of more than 15 years for an industrial design for which protection has been granted under that law, the duration of protection shall, provided that the international registration is renewed, be the same as that provided for by the law of that Contracting Party.

(c) Each Contracting Party shall, in a declaration, notify the Director General of the maximum duration of protection provided for by its law.

(4) [*Possibility of Limited Renewal*] The renewal of the international registration may be effected for any or all of the designated Contracting Parties and for any or all of the industrial designs that are the subject of the international registration.

(5) [*Recording and Publication of Renewal*] The International Bureau shall record renewals in the International Register and publish a notice to that effect. It shall send a copy of the publication of the notice to the Office of each of the Contracting Parties concerned.

Article 18

Information Concerning Published International Registrations

(1) [*Access to Information*] The International Bureau shall supply to any person applying therefor, upon the payment of the prescribed fee, extracts from the International Register, or information concerning the contents of the International Register, in respect of any published international registration.

(2) [*Exemption from Legalization*] Extracts from the International Register supplied by the International Bureau shall be exempt from any requirement of legalization in each Contracting Party.

If the fund becomes insufficient, the Assembly shall decide to increase it. The proportion and the terms of payment shall be fixed by the Assembly on the proposal of the Director General.

(6) [*Advances by Host State*] (a) In the headquarters agreement concluded with the State on the territory of which the Organization has its headquarters, it shall be provided that, whenever the working capital fund is insufficient, such State shall grant advances. The amount of those advances and the conditions on which they are granted shall be the subject of separate agreements, in each case, between such State and the Organization.

(iii) Where the principal industrial design is the subject of a national application which has not matured into registration, the number of the national application concerned or, if not available, the applicant's reference for that national application, together with the number of the principal industrial design if such an application contains more than one industrial design, or

In default of this, the international registration is published at the expiration of the period of deferment without account being taken of the request for the recording of a limitation or renunciation. Provided that the request for limitation or renunciation complies with the applicable requirements, the limitation or renunciation is however recorded in the International Register.

Part Seven Renewal
