

## LV – LATVIA

### MICROBIAL STRAIN COLLECTION OF LATVIA (MSCL)

University of Latvia  
Jelgavas str. 1  
Riga LV-1004

Telephone: (371) 6703 39 25

E-mail: collect@edu.lu.lv

Internet: <http://mikro.daba.lv>

#### 1. Requirements for Deposit

##### (a) Kinds of Microorganisms that May Be Deposited

Bacteria, fungi (including yeasts), plasmids in a host with the exception of pathogenic microorganisms of hazard group 3 or 4. Microorganisms having special requirements for cultivation, which the MSCL is not technically capable of carrying out, shall not be accepted.

##### (b) Technical Requirements and Procedures

###### (i) Form and Quantity

Cultures submitted to MSCL for deposit must be in the form of agar stabs (slants) or lyophilized. The minimum number of replicates that must be provided by the depositor is five stabs (slants) or 25 lyophilized ampoules.

###### (ii) Time Required for Viability Testing

The average time required for testing the viability of various microorganisms accepted by MSCL is 7 days, but in some cases viability testing may take 20 days.

###### (iii) Depositor Checks and Renewal of Stocks

The MSCL prepares its own batches by subculturing material originally supplied by the depositor. New batches are prepared for renewal of diminishing stocks. MSCL routinely asks the depositor to check the authenticity of the preparations made by the MSCL at the time of deposit from material supplied by the depositor. The MSCL routinely checks newly received deposits for contamination and, if they are found contaminated, returns them to the depositor. The MSCL stores original material supplied by the depositor.

(c) Administrative Requirements and Procedures

(i) General

*Language.* The official language of the MSCL is Latvian. Communications are accepted in English, German and Russian.

*Contract.* The MSCL does not enter into any written contract with the depositor defining the liabilities of either party but, by signing the MSCL deposit forms, the depositor surrenders any right to withdraw his deposit during the required storage period and accepts that the microorganisms will be distributed according to the relevant patent requirements.

*Import and/or Quarantine Regulations.* The kinds of microorganisms accepted for deposit by the MSCL are not subject to import or quarantine regulations. The MSCL does not advise the depositor of the procedures he must follow to obtain an import permit.

(ii) Making the Original Deposit

*Requirements to be Met by the Depositor.* Depositors are required to complete form MSCL–BP/1 (the equivalent of model form BP/1) which is the accession form used for Budapest Treaty deposits. They must complete the equivalent of model form BP/2 when making a new deposit and the equivalent of model form BP/7 when communicating a later designation or amendment of a scientific description and/or taxonomic designation.

*Official Notifications to the Depositor.* Except the mandatory “international forms,” official notifications are not issued on standard forms.

*Unofficial Notifications to the Depositor.* If requested, the MSCL will telephone or telefax the date of deposit and the accession number before the official receipt is issued, but only after a positive viability test has been obtained. The MSCL will similarly communicate the results of the viability test before the viability statement is issued.

*Supply of Information to a Patent Agent.* The MSCL does not routinely ask the depositor for the name and address of his patent agent. However, if requested, the MSCL will send copies of the receipt and viability statement to both the depositor and his patent agent.

(iii) Converting a Previous Deposit

Deposits made outside the provisions of the Budapest Treaty may be converted by the original depositor to deposits under the Budapest Treaty only if they were originally made for patent purposes. The administrative requirements for conversion are similar to those to be met in respect of an original deposit made under the Treaty.

All conversions are subject to the storage fee normally levied for Budapest Treaty deposits.

(iv) Making a New Deposit

The depositor is required to complete the equivalent of model form BP/2 when making a new deposit, and to supply copies of the relevant documents required by Rule 6.2. The receipt and viability statement for a new deposit are issued on mandatory “international forms” BP/5 and BP/9.

2. Furnishing of Samples

(a) Requests for Samples

The MSCL advises third parties of the correct procedures to follow in order to make a valid request. In the case of requests requiring proof of entitlement, the MSCL will provide requesting parties with copies of model request form BP/12 and/or request forms used by individual industrial property offices (where it has been supplied with such forms). All samples furnished by the MSCL are from batches of its own preparations.

(b) Notification of Depositor

Depositors are notified on model form BP/14 when samples of their microorganism have been furnished to third parties.

(c) Cataloguing of Budapest Treaty Deposits

The MSCL does not list Budapest Treaty deposits in its published catalog.

3. Schedule of Fees

	<u>Euros</u>
(a) Storage	426.86
(b) Issuance of a viability statement	42.69
(c) Furnishing of a sample (plus expedition cost)	42.69

The fees are subject to the Value Added Tax (VAT) at the rate of 21 %.

4. Guidance for Depositors

At present, the MSCL does not have specific written notes for the guidance of depositors, but is always ready to offer advice by telephone, telefax or e-mail.
