## **Status of removal of non-limiting references (IR)**

Update 15/04/2009

The following table summarizes the status of the removal of non-limiting references from the scheme. This table is regularly updated after sessions of the WG or the CE and posted to project WG191. The table lists all classes that have references in their titles, and also all subclasses.

For the procedure of the removal see paragraphs 19ff of document IPC/WG/19/2.

The “project”- column indicates the corresponding D, C, M - projects, if already existing, that deal or dealt with the removal of non-limiting references for a particular subclass (and sometimes the number of other projects that also dealt with it).

In the “status”- column the following abbreviations are used:

- WG/xx: A decision was taken at session xx of the WG; “None” means that the WG agreed that there were no references to be removed.
- CE/xx: A decision was taken at session xx of the CE; the number of the Technical Annex (TA) may be indicated; the respective project is indicated in brackets.
- RP The Rapporteur of the corresponding D-project is expected to submit a proposal (D-projects active on 31.12.2007)
- IB M032 The IB is expected to submit a proposal to M032 (for D-projects completed as of 31.12.2007)

**Bold** subclass symbols indicate that the removal of non-limiting references has been completed for the respective subclass, i.e. that either the CE had adopted the amendments or that the WG had decided that no changes were necessary.

The latest decisions included in this table are highlighted in **yellow**.
