It also highlights the fact that proper use of trademarks is beneficial to consumers as well as manufacturers.

Lesson Objectives

- To understand trademarks.
- To understand why we need trademarks.
- Invent trademarks and apply them.
Pororo Makes His Mark Workbook
Pororo and his friends invented the sled. There are two jet-propelled sleds, one made by the Rabbit Twins and the other by Pororo and his friends.

Observe the two sleds carefully to decide which one has been made by Pororo and circle it.
Pororo and his friends have decided to give their sled a name as a trademark. At the beginning they thought of names like Airplane or Prettiest Sled or Fast Fast.

Unfortunately these names cannot be used as a trademark. Think about why not and draw lines to connect them with appropriate reasons.

**Superjet**
- This trademark sounds like a description, rather than a sign of origin.

**Prettiest Sled**
- This trademark is vague and could confuse people as to the nature of the product.

**Velocity**
- This trademark just describes a quality of all sleds.
Pororo and his friends have decided to use the trademark for the sled they have invented: the ‘Porong-Porong Super Sled’.

What part of the sled did ‘Porong-Porong’ remind them of? Let’s show it in the picture below.

Try expressing the engine sound from the sled in ways other than ‘Porong-Porong’.
A trademark needs to show clearly the characteristics of invented goods (product). What will make a good trademark?

Match goods with the corresponding sound.
