

|    | Region          | Country   | Date            | Concluded (by Sept 2010) | Partners and Donors  | Actions   |
|----|-----------------|---|-----------------|--------------------------|--|---|
| 1  | Africa          | Tunisia   | 2003-2008       | yes                      | World Bank; Ministry of Agriculture of Tunisia; UMR Innovation; CIRAD  | <b>Agricultural Support Services Project.</b> One of the components of this project aimed at supporting public, cooperative, and private services that deliver producer services focused on increasing quality, value added, and market access.   |
| 2  | Africa          | Morocco   | 2008-2010       | no                       | FAO; Ministry of Agriculture of Morocco; Comader   | <b>Support to development and the implementation of a Recognition System for Specific Quality Signs and Origin-linked labels in Morocco.</b> The main objective of this project is to support Moroccan ministerial departments in the implementation of the institutional framework for promoting and preserving origin-linked quality products.  |
| 3  | Africa          | Morocco   | 2008-2010       | yes                      | FAO; Ministry of Agriculture of Morocco; Ormvat Migration and Development  | <b>Support to value chain organisation and development of a geographical indications for the Saffron of Taliouine.</b> The main objective of this project is the improvement of small-scale mountain producers' livelihood in the area of Atlas Mountains, by implementing a concrete strategy for adding value to Saffron of Taliouine and Tazenakht, including the development of a specific quality scheme.  |
| 4  | Africa          | Tunisie   | 2008-2010       | yes                      | FAO; Ministry of Agriculture of Tunisia; APIA Groupements Interprofessionnels  | <b>Support to development and implementation of a control system for origin-linked quality products.</b> The main objectives of the project is to support the implementation of the legal and institutional framework and the development of quality linked to geographical origin schemes.   |
| 5  | Africa          | Mali  | 2008-2012       | no                       | FAO; Italian Government; Government of Mali  | <b>Support to farmers organisations for a better valorisation and marketing of horticultural products</b> in the Bandiagara and Ménaka Cercle. This also included the development of a GI for the "échalote dogon".   |
| 6  | Africa          | Mali; Senegal, Guinea Bissau; Sierra Leone          | 2010            | no                       | FAO; Slow Food   | <b>Promotion of the Agri-Food Biodiversity and Development of the Local and Export Market</b> in four West African Countries: Mali, Senegal, Guinea Bissau and Sierra Leone.  |
| 7  | Africa          | Kenya   | 2009-2011       | no                       | IPI; Kenyan Industrial Property Institute Swiss Embassy, Nairobi   | <b>Swiss-Kenyan Project on Geographical Indications (SKGI).</b> The project objective is to make a key contribution to the establishment of a functional GI-protection system in Kenya and to support the country in raising awareness on GIs within EAC member states. Concretely, a GI legislation should be in place and selected Kenyan producers should be enabled to prepare the applications for the registration of their GIs.  |
| 8  | Africa          | Ghana   | 2009-2012       | no                       | IPI; Ministry Of Trade & Industry; Ghanainan Project Authority; Ghanainan Copyright Office Swiss Embassy   | <b>Strengthening the Intellectual Property System in Ghana.</b> The objective is to assist Ghana in designing a modern balanced system of intellectual property rights (IPR). This his includes support for setting up TRIPS-compliant development-friendly laws, geographical indications included.  |
| 9  | Africa          | Camerun; Guinea; Ivory Coast                        | 2009-2014       | no                       | AFD; OAPI  | <b>Trade Capacity Building Programme (PRCC - Programme de renforcement des capacités commerciales)</b> - Suport of member states of OAPI (Organisation Africaine de Propriété Intellectuelle) in implementing, controlling and protecting Geographical Indications (GIs).   |
| 10 | Asia            | Laos  | 2004-2008       | yes                      | AFD; CIRAD; Ministry of Agriculture of Laos  | <b>Trade Capacity Building Programme (PRCC - Programme de renforcement des capacités commerciales).</b> The Laos project included the introduction of Geographical Indications to enhance value of certain products.  |
| 11 | Asia            | Cambodia  | 2004-2009       | yes                      | AFD; Gret; Ministry of Trade of Cambodia   | <b>Trade Capacity Building Programme (PRCC - Programme de renforcement des capacités commerciales)</b> - Cambodia project, which included the introduction of Geographical Indications (GI) to enhance value of certain products  |
| 12 | Asia            | Vietnam   | 2007-2010       | yes                      | IPI; National Office Of Intellectual Property Of Vietnam; Vietnam Copyright Office; Swiss Embassy In Vietnam   | <b>Cooperation between Vietnam and Switzerland in the field of intellectual property.</b> The project aimed to assist Vietnam in its endeavour to implement a balanced system of IPR that serves best the countries' needs in the trade sector in coordination with initiatives of other donors. It specifically aimed at strengthening the use of specific types of IPR, such as, but not exclusively, geographical indications and traditional knowledge. As a third target group, university representatives were trained in using IPR for their purposes, in particular in research.  |
| 13 | Central America | Jamaica   | 2008-2010       | yes                      | IPI; Jamaican Intellectual Property Office; Jamaican Ministry Of Industry; Technology; Energy & Commerce; Jamaican Ministry Of Foreign Affairs; Swiss Embassy In Jamaica | <b>Geographical Indications Project Jamaica-Switzerland.</b> The technical cooperation between the Federal Institute of Intellectual Property and the Jamaica Intellectual Property Office aims to aid Jamaica in the creation of an appropriate protective system for geographical indications of source.  |
| 14 | Europe          | Serbia  | 2007-2008       | yes                      | SEEDDEV; Ibar Development Association; Serbian Ministry of Agriculture   | <b>The Promotion and protection of the Traditional Agricultural Products in Western Serbia.</b>   |
| 15 | Europe          | Ukraine   | 2009 (6 months) | yes                      | FAO; Ministry of Agriculture of Ukraine; NGO Association Heifer International  | <b>Assessment of GI potential and its realisation in support of Rural Development</b> - The aim of this project was to explore the possibilities for investments in an enabling environment for GI to play a major role in rural development.   |
| 16 | Europe          | Serbia  | 2009-2012       | no                       | IPI; SEEDDEV; SECO; AGRIDEA  | <b>Technical Assistance in the field of intellectual property rights (TRIPS compliance and geographical indications).</b> This three-year programme aims at supporting institutions and value-chain stakeholders to define and implement a GI protection system conducive for economic development of rural areas. At an institutional level, the project supports the improvement of the legal and overall institutional framework for GIs, and the establishment of an efficient control system.  |
| 18 | Latin America   | Argentina; Brasil; Chile; Costa Rica; Ecuador; Perú | 2010-2012       | no                       | FAO; Ministries of Agriculture; Intellectual Property Offices  | <b>Regional technical cooperation project on Origin-linked and tradition-based quality of food products.</b> The objective of this project is to improve the capacity of the institutions and of local organizations to support and/or conduct development programmes in the field of local quality products in Latin America. The project is considering two levels of intervention: local level through pilot cases (one in each country, in order to implement the methodology built with all the stakeholders) and the institutional level, through workshops and trainings, in order to support the implementation of the GIs and for the capacity-building of the stakeholders. |
