

## Registration of the International Trademark

Dear Registrant,

Trademarks are the important components of any successful business marketing strategy. They are indispensable for businesses in the design of their marketing strategies allowing them to identify, license and promote their goods or services in the marketplace and to distinguish these goods or services from those of their competitors, thereby cementing customer loyalty.

### Registration of the International Trademark

The registration includes neither the responses to the serious objections lodged to the office of the United States Patent and Trademark Office (USPTO), nor the protest of any third party lodged against the international patent application. Present form is exclusively the offer of our company for the concluding of the contract, the subject of which is a year-long registration of your international patent application in our internet database of the international patent applications published in www.wdtp.biz. By course of the provision § 275 par. 4 Act no. 513/1991 Coll., Commercial Code, Applicant hereby accepts presented proposal of Provider for the concluding of the contractual relationship by the cashless settlement of the promo invoice, issued by Provider for such a purpose. The acceptance of this offer for the concluding of the contract shall become effective in the moment of the settlement of the a.m. promo invoice. By the settlement of the promo invoice Applicant agrees with the fact that the contractual relation shall be governed by the general commercial terms of the company WDTP s.r.o., listed on the other side of this application; the questions not stipulated by these terms shall be governed by the rule of law of the Czech Republic, namely the Act no. 513/1991 Coll., Commercial Code. At the same time, by the acceptance of this proposal Applicant declares to be introduced to the General Commercial Terms.
