Madrid Pendency Rates
Key Figures as of 31 March 2020

International Applications

Renewals

Subsequent designations
**Modifications**

- The pendency rates are for transactions with no irregularities.
- The pendency is calculated from the date a document is received at WIPO to the date it is inscribed in the International Register.
- Monthly average is the monthly rolling average during the preceding six-month period.
- The days represented on the vertical axis are calendar days.
