1. Please indicate the relevant provisions in your national legislation providing for or regulating the limitations and exceptions to facilitate access to published works for persons who are blind, visually impaired, or otherwise print disabled.

The relevant provisions for the implementation of Directive 2017/1564 are sections 45b to 45d of the German Copyright Act, available at gesetze-im-internet.

Section 45b Persons with visual impairment or reading disability
1. Persons with a visual impairment or reading disability may reproduce, for their personal use, published literary works which are available in text or in audio format as well as graphic recordings of musical works, or may have them reproduced, in order that they may be converted into an accessible format. This authorisation also encompasses illustrations of all kinds which are contained within literary or musical works. Copies may only be produced of works to which persons with a visual impairment or reading disability have lawful access.

2. Persons with a visual impairment or reading disability within the meaning of this Act are persons who are unable, as a result of a physical or mental impairment or of a perceptual disability, to read literary works, even with the assistance of a visual aid, to substantially the same degree as persons without such an impairment or disability.

Section 45c Authorised entities; remuneration; authorisation to issue statutory instruments
1) Authorised entities may reproduce published literary works which are available in text or in audio format as well as graphic recordings of musical works in order that they may be converted into an accessible format for the exclusive use of persons with a visual impairment or reading disability. Section 45b (1) sentences 2 and 3 shall apply accordingly.

2) Authorised entities may lend out and disseminate copies produced in accordance with subsection (1) to persons with a visual impairment or reading disability or to other authorised entities and may use them to make the works available to the public or for other communication to the public.

3) ‘Authorised entity’ means any establishment providing education or accessible reading or information access on a non-profit basis to people with a visual impairment or reading disability.

4) Authors shall be entitled to payment of equitable remuneration for uses in accordance with subsections (1) and (2). Claims may only be asserted by a collecting society.

5) The Federal Ministry of Justice and Consumer Protection shall be authorised to regulate the following by statutory instrument not requiring the approval of the Bundesrat concerning authorised entities:
   1. their duties in relation to uses pursuant to subsections (1) and (2),
2. their duty to notify the German Patent and Trade Mark Office of their status as an authorised entity,
3. oversight over the German Patent and Trade Mark Office concerning compliance with the duties under no. 1, with the proviso under section 85 (1) and (3) and section 89 of the Collecting Societies Act (Verwertungsgesellschaftengesetz).

The Statutory Instrument on Authorised Entities under the Copyright Act pursuant to Section 45c (5) of the Copyright Act [Verordnung über befugte Stellen nach dem Urheberrechtsgesetz (UrhGBefStV)] is available here [German]

**Section 45d Lawfully permitted use and contractually authorised use**
The rightholder may not invoke agreements which restrict or prohibit uses permitted in accordance with sections 45b and 45c and such restriction or prohibition is to the detriment of the persons entitled to such use.

2. Does your national legislation permit the cross-border exchange (i.e. exportation) of “accessible format copies”, as defined in Article 2 b) MVT? If yes, under which conditions?

The cross-border exchange of “accessible format copies” within the EU is addressed by the Directive 2017/1564, whose provisions had to be implemented into national law by the member states of the EU (for Germany, see above). Directive 2017/1564 is available at lex europa website.

In particular, see Art. 4 sentence 2 of Directive 2017/1564:

Member States shall also ensure that a beneficiary person or an authorised entity established in their territory may obtain or may have access to an accessible format copy from an authorised entity established in any Member State.

The cross-border exchange of “accessible format copies” between member states of the EU and third countries is allowed according to and under the conditions of Art. 3 and Art. 4 of Regulation 2017/1563, available at: lex europa website.

**Article 3 Export of accessible format copies to third countries**
An authorised entity established in a Member State may distribute, communicate or make available to beneficiary persons or to an authorised entity established in a third country that is a party to the Marrakesh Treaty an accessible format copy of a work or other subject matter made in accordance with the national legislation adopted pursuant to Directive (EU) 2017/1564.

**Article 4 Import of accessible format copies from third countries**
A beneficiary person or an authorised entity established in a Member State may import or otherwise obtain or access and thereafter use, in accordance with the national legislation adopted pursuant to Directive (EU) 2017/1564, an accessible format copy of a work or other subject matter that has been distributed, communicated or made available to beneficiary persons or to authorised entities, by an authorised entity in a third country that is a party to the Marrakesh Treaty.
3. Does your national legislation allow the importation of “accessible format copies”, as defined in Article 2 b) MVT? If yes, under which conditions?

See answer to question 2.

4. Does your national legislation provide a definition of “authorized entity”, as defined in Article 2 c) MVT? If yes, please provide the reference.

A definition of the term “authorized entity” is provided in section 45c (3) of the German Copyright Act, available at gesetze im internet website.

(3) ‘Authorised entity’ means any establishment providing education or accessible reading or information access on a non-profit basis to people with a visual impairment or reading disability.

5. Please provide a list with contact details of entities that can operate as authorized entities in your territory, and any further information that you can provide, such as number of accessible titles in the catalogue of the authorized entity and the languages covered.

The German Patent and Trade Mark Office (DPMA) maintains a list of the authorised entities and publishes it on its website in an accessible form [German].

List of authorised entities (as of: October 2021):

**Arbeitsgruppe Services Behinderung und Studium (AG SBS)**

Technische Universität Dresden
Nöthnitzer Straße 46
01187 Dresden
Tel: 0049 351 463 38467
Fax: 0049 351 463 38491
E-mail: agsbs@tu-dresden.de
AG SBS Website

The Arbeitsgruppe Services Behinderung und Studium (Working Group Services Disability and Study - AG SBS) was founded in 1990 and since then supports students with visual impairments at the Dresden University of Technology (TU Dresden) by lending technology and preparing accessible teaching materials. Over the decades, the AG SBS has become increasingly important at the TU Dresden. Its field of activity is now advising and supporting people with visual and reading disabilities in the context of the university. The AG SBS is an important body for inclusion at the TU Dresden.
Bayerischer Blinden- und Sehbehindertenbund e.V. (BBSB) BIT-Zentrum
