

Conference on Copyright Documentation and Infrastructure

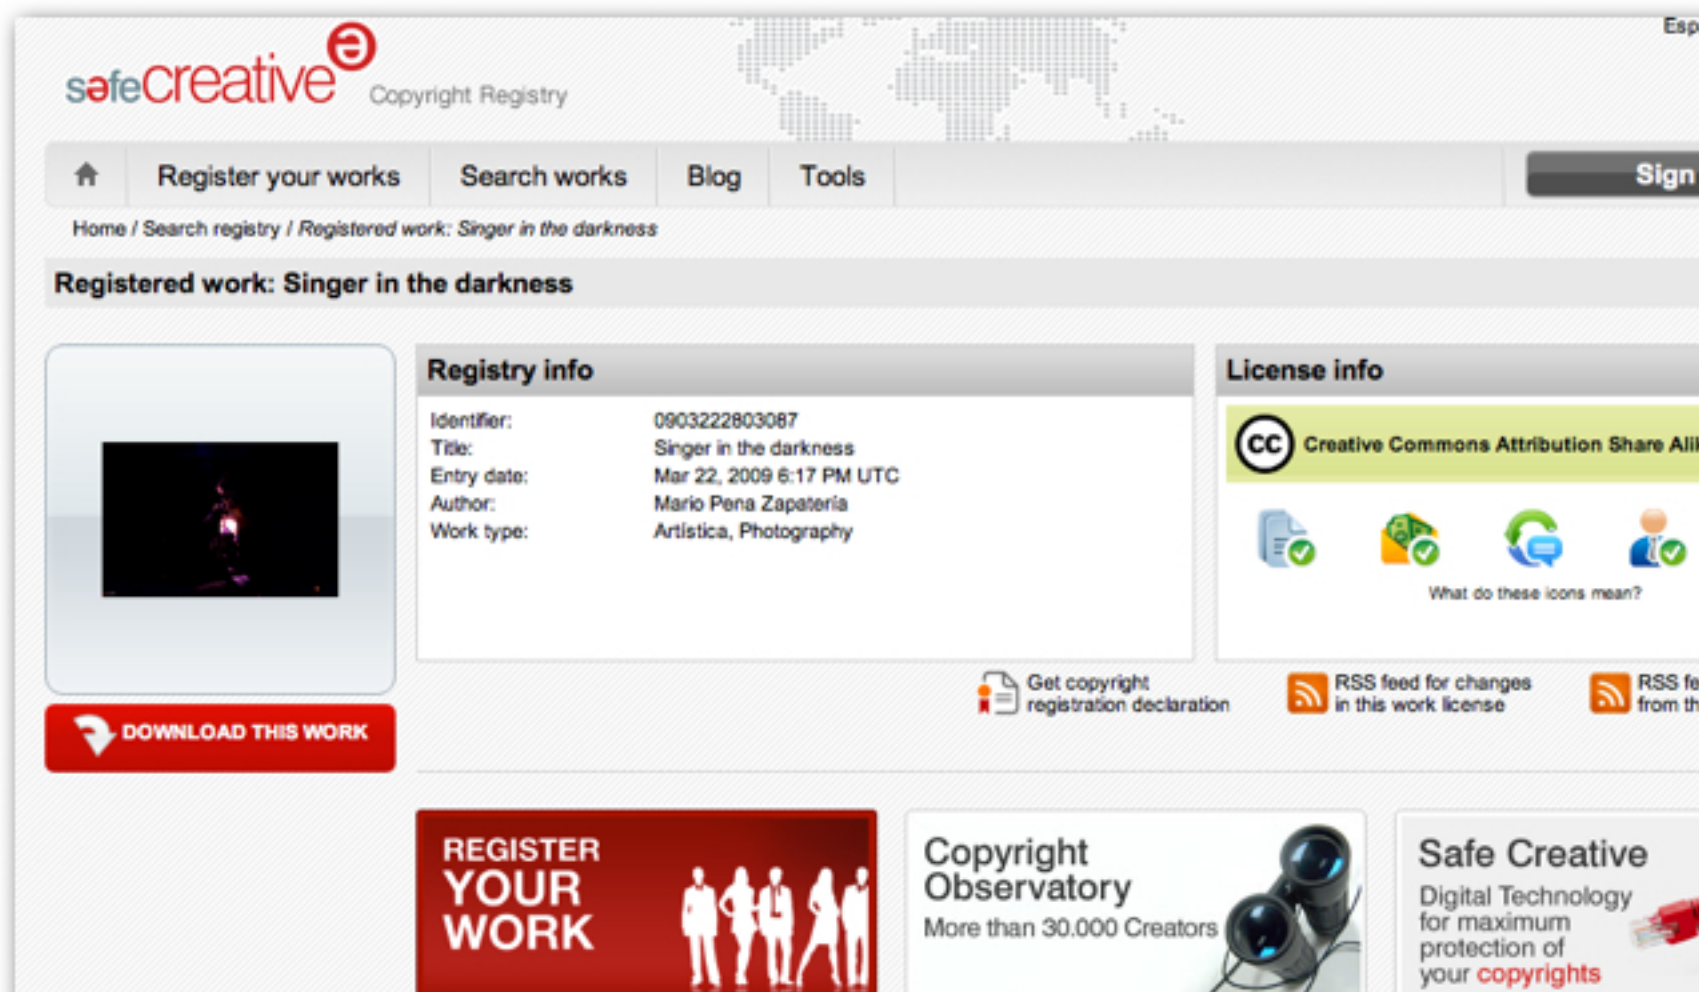

Theme II. Private Registration and Documentation

safeCreative[®]

Private Online Copyright Registry

1. What is Safe Creative

- A Copyright Registration Service
- both for authorship (Moral Rights)
- as for exploitation rights

The screenshot displays the Safe Creative Copyright Registry interface. At the top, the logo 'safe creative' is accompanied by a copyright symbol and the text 'Copyright Registry'. A navigation bar includes links for 'Register your works', 'Search works', 'Blog', 'Tools', and a 'Sign' button. Below the navigation, a breadcrumb trail reads 'Home / Search registry / Registered work: Singer in the darkness'. The main content area is titled 'Registered work: Singer in the darkness' and is divided into three columns. The left column features a placeholder image for the work and a red 'DOWNLOAD THIS WORK' button. The middle column, 'Registry info', lists: Identifier: 0903222803087, Title: Singer in the darkness, Entry date: Mar 22, 2009 6:17 PM UTC, Author: Mario Pena Zapateria, and Work type: Artística, Photography. The right column, 'License info', shows the Creative Commons Attribution-ShareAlike license (CC BY-SA) with icons for attribution and share-alike, and a link to 'What do these icons mean?'. At the bottom of the registry info section, there are three links: 'Get copyright registration declaration', 'RSS feed for changes in this work license', and 'RSS feed from this work'. The footer contains three promotional banners: 'REGISTER YOUR WORK' with silhouettes of people, 'Copyright Observatory' with the text 'More than 30.000 Creators' and an image of binoculars, and 'Safe Creative Digital Technology for maximum protection of your copyrights' with an image of a USB drive.

Safe Creative's Main Functionalities

The registration and publication of the author and the holders of the work provided by a system of multiple fingerprints and time-stamping, which provides evidence against third parties.

Registration and publication of terms and conditions of use (reproduction, copying, distribution, public communication ...), facilitating the management of rights (individual or collective)

The emission of certificates of authorship or ownership of the work, for, if necessary, to provide documentary evidence that proves the date and time of registration at Safe Creative.

From the management of information to the management on knowledge

- Possibility to identify the “effective” use of works
- Possibility to manage and protect contents and rights
- Possibility to identify authors and rights holders of works
- Possibility to inform about terms and conditions of use
- Need to have an on-line registry for works, authors, and rights holders
- Need to have an online licensing system

Thank you!
