Non-certified extracts from the Register of Patents can be obtained online under the entry "Specification/e-Register" on the Application Details page.

PCT Application/Publication Number search can be done using formats like PCT/US2010/026073 (application) or WO2010/102020 (publication). Click on the question mark in the structured search to see the full range of searchable number formats.

An example of data reported as a **Legal Status** is, e.g., "GRANTED" for PCT/US2010/026073. It is found by viewing "Application status", under "Bibliographic data - Application details".

To access the **Dossier/File Wrapper Information**, see the entry "eDossier" after having clicked on the application number on the "Search Results" page; e.g., PCT/EP2009/000017. eDossiers are generally available for patent applications filed from around 2002.

To access information about the PCT **National Phase Entry**, see the entry "PCT details" under "Bibliographic data" after having clicked on the application number on the "Search Results" page. To know if an extension of patent term has been sought, view the entry "Extension of term" under "Lifecycle details", e.g. for patent 2003254711.
