#### Features and search functionalities

The online patent register has an **English interface**. It contains information about Irish patents, short-term patents, and European patents.

There is also a [patent database](#) which allows searching by **PCT Publication Number**, by **Applicant/Inventor Name**, and by **Priority Data** (Priority Date or Number, but without country code). Through the patent database, it is also possible to access the **Full Publications** as "ashx" files or PDF files through a link to Espacenet.

The online gazette is published every two weeks in English. It is searchable by number and date and can be displayed in HTML and PDF format. The current coverage is from 2002 to present.
