Search tips

All documents are in Thai, including the **Legal Status**. The dates which are used on all inquiries are based on the Thai calendar not on the Gregorian calendar.

An example of data reported as **Legal Status** is "Diberi" (granted) for "nomor" (number) W00200400153.

A recent **Fee Payment** is reported as the most recent **Legal Status** if this event was the last one determining the status.

The most recent **Legal Status** is indicated on the page containing the bibliographic data. To see the status in case you do not know the Thai language, it is suggested to translate the web page by using a

translation tool and get, e.g., "Revocation notice" for patent 41716, or "annual fee payment" for patent 32128 (corresponding to WO02062779).

Copies of patents **Full Publications** are downloadable from the "Read file" in the third section.

On ASEAN Patentscope, it is possible to search for patents by **PCT Application Number**, e.g., in the general "search" field for WO/PCT/GB2015/050356.
