# 2023/2024 PCT User Satisfaction Survey: Summary

**Geneva  
January 2024**

# Summary (1)

- PCT@WIPO continued to be assessed by its users as offering consistent and highly valued services, as reflected in the 2023/2024 PCT User Survey
  - 90% of PCT users said they were overall either “very satisfied” (39%) or “satisfied” (51%) with the PCT-related services provided by WIPO
    - this score equalled that of 2021 and was a slight increase over the 88% satisfaction in 2019
    - It was also similar to the previous PCT user surveys (2009, 2015, 2017)
  - Highest overall levels of satisfaction were expressed by:
    - applicants who filed several applications (11-49 applications: 94%) (versus 1 application: 86%)
    - representatives of applicants (91%) (versus applicants—85%)
    - users from Africa, Americas and Europe (92-98%) (versus Asia—86%)

## Summary (2)

- PCT users confirmed high levels of continuing satisfaction with quality of:
  - filing with the receiving Office of the International Bureau (RO/IB)
  - PCT staff contacts at WIPO
  - IB's PCT information resources and systems
  - IB's PCT training programs
- Perceived value of PCT continues to be high across all users
- After fully reviewing all of the collected data, including the textual comments, we will prepare a plan of action to address issues identified in the survey.

# Methodology

- The survey process was overseen by the WIPO Customer Experience Section and managed by an external contractor (Berent)
- The survey questionnaire:
  - was made available in ten languages: English, French, Spanish, Arabic, Chinese, Russian, Japanese, Portuguese, German and Korean
  - was open for response from 20 October to 30 November 2023
- A total of 22,971 invitations were sent out to PCT users (one year's worth of applicant/agent contacts of published PCT applications)
- Out of 2,755 responded online interviews, the contractor deemed that 1,759 interviews were suitable for analysis

# Takeaways

- The PCT User Survey 2023/2024 once again showed high overall satisfaction ratings
- The survey results and detailed textual comments of the users (about 1500 comments received in 10 languages) will be considered when creating an action plan to make improvements to our services
  - there are areas of concern visible in the survey results, such as the drop in belief by users that the PCT international phase procedure adds value in the national phase, which we need to better understand
- Representatives of the International Bureau should express their thanks to the PCT Users for the detailed and constructive feedback provided in the Survey results
