The said notification is hereby corrected and republished, as follows:

During its fifty-first (22nd ordinary) session, held in Geneva from 30 September to 9 October 2019, the Assembly of the International Patent Cooperation Union (PCT Union) unanimously adopted, among others, new Rule 20.5bis3 of the PCT Regulations concerning erroneously filed elements and parts of international applications, as well as new Rule 20.8(a-bis), concerning incompatibility of Rules 20.5bis(a)(ii)4 and 20.5bis(d)5 with the national law applied by receiving Offices. These new Rules, among others, will enter into force on 1 July 2020.

---

3 The complete text of Rule 20.5bis is reproduced in Annex III of document number PCT/A/51/2, which is available online at: https://www.wipo.int/edocs/mdocs/govbody/en/pct_a_51/pct_a_51_2.pdf

4 New Rule 20.5bis(a)(ii) states: "Where, in determining whether the papers purporting to be an international application fulfill the requirements of Article 11(1), the receiving Office finds that an entire element referred to in Article 11(1)(iii)(d) or (e) has or appears to have been erroneously filed, or that a part of the description, claims or drawings has or appears to have been erroneously filed, including the case where all drawings have or appear to have been erroneously filed ("erroneously filed element or part"), it shall promptly invite the applicant, at the applicant’s option to confirm, in accordance with Rule 20.6(a), that the correct element or part was incorporated by reference under Rule 4.18 and to make observations, if any, within the applicable time limit under Rule 20.7. If that time limit expires after the expiration of 12 months from the filing date of any application whose priority is claimed, the receiving Office shall call that circumstance to the attention of the applicant."

5 New Rule 20.5bis(d) states: "Where, following an invitation under paragraph (a) or otherwise, a correct element or part is, under Rule 20.6(b), considered to have been contained in the purported international application on the date on which one or more elements referred to in Article 11(1)(iii) were first received by the receiving Office, the erroneously filed element or part concerned shall remain in the application, and the receiving Office shall accords as the international filing date the date on which all of the requirements of Article 11(1) are fulfilled and proceed as provided in Rule 20.2(b) and (c) and as provided for in the Administrative Instructions."
New Rule 20.8(a-bis) states: “If, on October 9, 2019, any of Rules 20.5bis(a)(ii) and (d) are not compatible with the national law applied by the receiving Office, the Rules concerned shall not apply to an international application filed with that receiving Office for as long as they continue not to be compatible with that law, provided that the said Office informs the International Bureau accordingly by April 9, 2020. The information received shall be promptly published by the International Bureau in the Gazette.”

MEETINGS OF THE INTERNATIONAL PATENT COOPERATION UNION – ASSEMBLY (FIFTY-FIRST (22ND ORDINARY) SESSION)

NOTE PREPARED BY THE INTERNATIONAL BUREAU

At its fifty-first (22nd ordinary) session, which was held in Geneva from 30 September to 9 October 2019 as part of the meetings of the Assemblies of the Member States of WIPO, the Assembly of the International Patent Cooperation Union (PCT Union) approved the following changes affecting the PCT System:

– amendments to the PCT Regulations; and

– a revised version of the lists of States meeting the criteria referred to in items 5(a) and 5(b) of the PCT Schedule of Fees, in accordance with the Directives1 for updating these lists.

Documents prepared for the Assembly, which give detailed background information relating to the decisions taken, as well as the session report, are available on the WIPO website at:

www.wipo.int/meetings/en/details.jsp?meeting_id=52258

The aforementioned changes are outlined below.

Amendments to the PCT Regulations

The amendments to the PCT Regulations that were approved by the Assembly will enter into force on 1 July 2020 and are as follows:

– Amendments to PCT Rule 82\textsuperscript{quater}, regarding safeguards in case of outages affecting Offices, are intended to allow Offices to simplify the process of Excusing failures to meet certain time limits due to outages of electronic systems;

– New PCT Rule 26\textsuperscript{quater}, concerning correction or addition of indications under PCT Rule 4.11, allows for correction of errors or omissions in indications of the type of protection to be sought in the national phase;

– New PCT Rule 40\textsuperscript{bis}, as well as amendments to PCT Rules 4, 12, 20, 48, 51\textsuperscript{bis}, 55 and 82\textsuperscript{ter}, concerning erroneously filed elements and parts of the international application, are intended to align the practices of receiving Offices and designated (or elected) Offices in the special case where an applicant has erroneously filed a wrong element or part of the international application;

1 As adopted by the Assembly of the PCT Union at its forty-sixth (27th extraordinary) session and published in the Official Notices (PCT Gazette) of 12 February 2015 (page 33).
– Amendments to PCT Rules 15, 16, 57 and 96, concerning the transfer of PCT Fees, are enabling provisions setting out consistent procedures on transferring fees from one Office to another via the International Bureau, with an aim to assist Offices wishing to use the new “netting” arrangement; and

– Amendments to PCT Rules 71 and 94, concerning the availability of the file held by the International Preliminary Examining Authority, allow greater transparency by permitting more documents related to the international preliminary examination procedure to be made available to the public.

Furthermore, the Assembly adopted the following Understandings concerning the provisions relating to erroneously filed elements and parts of the international application:

– “In adopting new Rule 20.5bis, the Assembly agreed that Article 15 should be interpreted such that, in the case of incorporation by reference of a correct element or part under Rule 20.5bis(d), the International Searching Authority would only be required to carry out the international search on the basis of the international application (‘the claims, with due regard to the description and the drawings, if any’) including the correct element or part incorporated by reference, and would not need to take into account any erroneously filed element or part which, pursuant to Rule 20.5bis(d), remained in the application. The Assembly further agreed that Article 15 should be interpreted such that, in the case referred to in Rule 40bis.1, where no additional fees were paid within the prescribed time limit, the International Searching Authority would only be required to carry out the international search on the basis of the international application (‘the claims, with due regard to the description and the drawings, if any’) including the erroneously filed element or part, and would not need to take into account any correct element or part included in the application under Rule 20.5bis(c) or incorporated by reference under Rule 20.5bis(d).

– In adopting new Rule 20.8(a-bis), the Assembly agreed that, where a correct element or part cannot be incorporated by reference under Rules 20.5bis(a)(ii) and (d) because of the operation of Rule 20.8(a-bis), the receiving Office concerned and the International Bureau shall agree, under Rule 19.4(a)(iii), with the authorization of the applicant, that the procedures under Rule 19.4 shall apply, in which case the international application shall, subject to Rule 19.4(b), be considered to have been received by that Office on behalf of the International Bureau as receiving Office under Rule 19.1(a)(iii).”

EXCUSE OF DELAY IN MEETING PCT TIME LIMITS DURING COVID-19 PANDEMIC: APPLICABILITY OF PCT RULE 82QUATER.1 AND ADDITIONAL SPECIAL MEASURES

NOTE PREPARED BY THE INTERNATIONAL BUREAU: INTERPRETATIVE STATEMENT AND RECOMMENDED PRACTICE

Pursuant to PCT Rule 82quater.1, where any interested party offers evidence that a time limit fixed in the Regulations under the PCT (“the Regulations”) for performing an action before an Office, Authority or the International Bureau was not met due to war, revolution, civil disorder, strike, natural calamity, general unavailability of electronic communications services or other like reason, and that the relevant action was taken as soon as reasonably possible, the delay in meeting the relevant time limit may be excused.

In the view of the International Bureau, the current global COVID-19 pandemic should be considered to be a “natural calamity” or “other like reason” under PCT Rule 82quater.1(a).

Consequently, the International Bureau, including in its capacity as receiving Office, shall treat favorably any request, under PCT Rule 82quater.1(a), which cites reasons relating to the COVID-19 pandemic for the failure to meet a time limit fixed in the Regulations, and shall not require the interested party to provide evidence to it that the COVID-19 pandemic affected the locality in which the interested party resides, has a place of business, or is staying.

Furthermore, the receiving Office of the International Bureau shall delay until 31 May 2020 the issuance of notifications concerning an international application considered to be withdrawn (Form PCT/RO/117).

The International Bureau urges all PCT Offices and Authorities to adopt a similar interpretation and practice. Furthermore, the International Bureau recommends the following:

–for at least one month (with the possibility of further extension), notifications that an international application is considered to be withdrawn only be issued with respect to deadlines that had previously expired for at least two months; and

–receiving Offices waive the charging of late payment fees (under PCT Rule 16bis.2).

1 To benefit from the relief provided for under Rule 82quater.1, the interested party would normally be required to address such evidence to the competent Office, Authority or the International Bureau, as the case may be, not later than six months after the expiration of the time limit applicable in the given case, in addition to having taken the relevant action as soon as reasonably possible. If such circumstances are proven to the satisfaction of the addressee, delay in meeting the time limit shall be excused.

Excuse of Delay under PCT Rule 82quater.2: Notifications by Offices and Authorities under Section 111(c) of the Administrative Instructions under the PCT

| SE  | Sweden | 139 |

The publication Official Notices (PCT Gazette) is part of the Gazette published by the International Bureau of the World Intellectual Property Organization in accordance with Article 55(4) of the Patent Cooperation Treaty (PCT) and Rule 86 of the Regulations under the PCT.
MODIFICATIONS OF THE ADMINISTRATIVE INSTRUCTIONS UNDER THE PCT

NOTE PREPARED BY THE INTERNATIONAL BUREAU

Following consultation with Offices, Authorities, and certain non-governmental organizations representing users of the PCT system, pursuant to PCT Rule 89.2(b), modifications to Sections 111, 308bis, 309, 310, 310bis, 310ter, 311, 410, 413, and Annexes C, D and E of the Administrative Instructions under the PCT, as well as new Sections 114, 317bis, 419bis, 420bis, 602bis and new Annex G, were promulgated with effect from 1 July 2020.

The main purposes of these modifications are:

(i) to increase transparency and legal certainty of the procedure for the excuse of delay in the case of unavailability of electronic means of communication under new PCT Rule 82quater.2¹ (Section 111 and Annex E);

(ii) to establish details of the procedures to be followed by Offices collecting fees for the benefit of other Offices, or receiving fees collected by other Offices, and to create a consistent legal basis for the operation of the WIPO Fee Transfer Service (formerly the “netting pilot”) with the long term aim of exchanging high-quality and timely fee information in a consistent format (Section 114 and Annex G);

(iii) to provide guidance in order to align the practices of receiving Offices and designated (or elected) Offices in the special case where an applicant has erroneously filed an incorrect element or part of the international application (Sections 308bis, 309, 310, 310bis, 310ter, 311, 410 and 413, and Annexes C and D);

(iv) to provide a legal basis for treating the date of receipt of a notice under PCT Rule 26quater.1 at the receiving Office as the date of receipt at the International Bureau, and a legal basis for the correction or addition of the indications provided for in Rule 4.11 within a period that would ensure their inclusion in the international publication (Sections 317bis and 419bis); and

(v) to provide a legal basis for requiring an International Preliminary Examining Authority (IPEA) to copy certain documents from the file of the international preliminary examination to the International Bureau while allowing some flexibility in the time for effecting such transmittal, and a legal basis for permitting the International Bureau to communicate the documents received from an IPEA to elected Offices (Sections 420bis and 602bis).

Section 111
Procedure and Considerations in the Case of Excuse of the Delay in Meeting Certain Time Limits under Rule 82quater

(a) Where the receiving Office, the International Searching Authority, the Authority specified for supplementary search, the International Preliminary Examining Authority, or the International Bureau receives a request under Rule 82quater for the excuse of a delay in meeting a time limit, it shall promptly:

(i) communicate its decision whether or not to excuse such a delay to the interested party; and

(ii) where applicable, transmit a copy of such a request, a copy of any evidence furnished and of its decision to the International Bureau.

(b) An interested party desiring to have delays excused due to general unavailability of electronic communications services under Rule 82quater.1 must establish that the outage of electronic communications services affected a widespread geographical area rather than being a localized problem, that it was unexpected or unforeseen, and that there was no alternative communication means available to him.

(c) Where any Office that acts as the receiving Office, the International Searching Authority, the Authority specified for supplementary search, or the International Preliminary Examining Authority provides for the excuse of a delay in meeting time limits due to the unavailability of electronic means of communication at that Office under Rule 82quater.2, it shall notify the International Bureau accordingly. The International Bureau shall promptly publish this information in the Gazette.

(d) Where the International Bureau provides for the excuse of a delay in meeting time limits due to the unavailability of electronic means of communication at the Bureau under Rule 82quater.2, it shall publish this information in the Gazette.

(e) The International Bureau shall also promptly publish in the Gazette any notification received by it under Rule 82quater.2(a), last sentence.

Section 114
Notification and Transfer of Fees

(b) The sheets of the international application shall be provisionally renumbered in the following manner:

(i) subject to paragraph (iii), when a sheet is deleted, the receiving Office shall either include a blank sheet with the same number and with the word “DELETED,” or its equivalent in the language of publication of the international application, below the number, or insert, in brackets, below the number of the following sheet, the number of the deleted sheet with the word “DELETED” or its equivalent in the language of publication of the international application;

(ii) when one or more sheets are added, each sheet shall be identified by the number of the preceding sheet followed by a slant and then by another Arabic numeral such that the additional sheets are numbered consecutively, starting always with number one for the first sheet added after an unchanged sheet (e.g., 10/1, 15/1, 15/2, 15/3, etc.); when later additions of sheets to an existing series of added sheets are necessary, an extra numeral shall be used for identifying the further additions (e.g., 15/1, 15/1/1, 15/1/2, 15/2, etc.).
(iii) where a correct element or part furnished under Rule 20.5bis to correct an erroneously filed element or part is added to the international application, the sheets of the correct element or part shall be numbered without taking into account the sheets of the erroneously filed element or part, and no action referred to in paragraph (i) need be taken with respect to the sheets of the erroneously filed element or part, either when they are removed from the international application under Section 309(c)(iv) or 310(b)(iv), or when they are moved to the end of the corresponding element of the international application under Section 309(b)(iv).

(c) In the cases mentioned in paragraph (b), it is recommended that the receiving Office should write, below the number of the last sheet, the total number of the sheets of the international application followed by the words “TOTAL OF SHEETS” or their equivalent in the language of publication of the international application. It is further recommended that, at the bottom of any last sheet added, the words “LAST ADDED SHEET” or their equivalent in the language of publication of the international application should be inserted.

INTRODUCTION

1. This Standard has been elaborated so as to provide standardization of the presentation of nucleotide and amino acid sequence listings in international patent applications. The Standard is intended to allow the applicant to draw up a single sequence listing which is acceptable to all receiving Offices, International Searching and Preliminary Examining Authorities for the purposes of the international phase, and to all designated and elected Offices for the purposes of the national phase. It is intended to enhance the accuracy and quality of presentations of nucleotide and amino acid sequences given in international applications, to make for easier presentation and dissemination of sequences for the benefit of applicants, the public and examiners, to facilitate searching of sequence data and to allow the exchange of sequence data in electronic form and the introduction of sequence data onto computerized databases.

DEFINITIONS

2. For the purposes of this Standard:

(i) the expression “sequence listing” means a nucleotide and/or amino acid sequence listing which gives a detailed disclosure of the nucleotide and/or amino acid sequences and other available information;

(i-bis) the expression “sequence listing forming part of the international application” means a sequence listing contained in the international application as filed (as referred to in paragraph 3), including any sequence listing or part thereof which is included in the international application under Rule 20.5(b) or (c), or 20.5bis(b) or (c), which is considered to have been contained in the international application under Rule 20.6(b), or which has been corrected under Rule 26, rectified under Rule 91 or amended under Article 34(2); or a sequence listing included in the international application by way of an amendment under Article 34(2)(b) of the description in relation to sequences contained in the international application as filed (as referred to in paragraphs 3bis and 3ter);

(i-ter) the expression “sequence listing not forming part of the international application” means a sequence listing which does not form part of the international application but is furnished for the purposes of the international search or international preliminary examination (as referred to in paragraphs 4 and 4bis);

(ii) sequences which are included are any unbranched sequences of four or more amino acids or unbranched sequences of ten or more nucleotides. Branched sequences, sequences with fewer than four specifically defined nucleotides or amino acids as well as sequences comprising nucleotides or amino acids other than those listed in Appendix 2, Tables 1, 2, 3 and 4, are specifically excluded from this definition;
(iii) “nucleotides” embrace only those nucleotides that can be represented using the symbols set forth in Appendix 2, Table 1. Modifications, for example, methylated bases, may be described as set forth in Appendix 2, Table 2, but shall not be shown explicitly in the nucleotide sequence;

(iv) “amino acids” are those L-amino acids commonly found in naturally occurring proteins and are listed in Appendix 2, Table 3. Those amino acid sequences containing at least one D-amino acid are not intended to be embraced by this definition. Any amino acid sequence that contains post-translationally modified amino acids may be described as the amino acid sequence that is initially translated using the symbols shown in Appendix 2, Table 3, with the modified positions, for example, hydroxylations or glycosylations, being described as set forth in Appendix 2, Table 4, but these modifications shall not be shown explicitly in the amino acid sequence. Any peptide or protein that can be expressed as a sequence using the symbols in Appendix 2, Table 3, in conjunction with a description elsewhere to describe, for example, abnormal linkages, cross-links (for example, disulfide bridge) and end caps, non-peptidyl bonds, etc., is embraced by this definition;

(v) “sequence identifier” is a unique integer that corresponds to the SEQ ID NO assigned to each sequence in the listing;

(vi) “numeric identifier” is a three-digit number which represents a specific data element;

(vii) “language-neutral vocabulary” is a controlled vocabulary used in the sequence listing that represents scientific terms as prescribed by sequence database providers (including scientific names, qualifiers and their controlled-vocabulary values, the symbols appearing in Appendix 2, Tables 1, 2, 3 and 4, and the feature keys appearing in Appendix 2, Tables 5 and 6);

(viii) “competent Authority” is the International Searching Authority that is to carry out the international search and to establish the written opinion of the International Searching Authority on the international application, or the International Preliminary Examining Authority that is to carry out the international preliminary examination on the international application.
