INTERNATIONAL SEARCHING AUTHORITIES
INTERNATIONAL PRELIMINARY EXAMINING AUTHORITIES

AU  Australia

Following the publication in Official Notices (PCT Gazette) of 13 December 2007, pages 187 and 188, of the text of an interim Agreement concluded between the Government of Australia and the International Bureau, extending the appointment of the Australian Patent Office as International Searching and Preliminary Examining Authority under the PCT until 31 December 2008, the Government of Australia and the International Bureau have concluded a new Agreement which came into force on 1 January 2009. The new Agreement is effective until 31 December 2017 and is set out on pages 14 to 19.

ES  Spain

The Spanish Patent and Trademark Office has notified the International Bureau, in accordance with Article 11(3)(ii) of the above-mentioned Agreement, of an amendment to Part I of Annex C thereof. The amendment consists of a revision of footnote 1 of the Agreement and will enter into force on 1 February 2009.

The revised footnote 1 will read as follows:

“This fee is reduced by 75% where the applicant or, if there are two or more applicants, each applicant is a natural person or a legal entity and is a national of and resides in a State not party to the European Patent Convention and which is classified by the World Bank in the group of countries of ‘low income’, ‘lower middle income’ or ‘upper middle income’.”

The effect of the amendment is that the 75% reduction of the search fee (PCT Rule 16.1(a)) and the additional fee (PCT Rule 40.2(a)) is now available to nationals and residents of certain States depending on criteria revised periodically by the World Bank. The Spanish Patent and Trademark Office will maintain an updated list of States which meet such criteria.

EP  European Patent Organisation

The former Yugoslav Republic of Macedonia deposited, on 28 October 2008, its instrument of accession to the European Patent Convention (EPC) and became bound by that Convention on 1 January 2009. Thus, since 1 January 2009, it is possible for applicants to designate the former Yugoslav Republic of Macedonia in their international applications also for the purposes of obtaining a European patent, and not only for the purposes of obtaining a national patent, as at present.

Moreover, since 1 January 2009, nationals and residents of the former Yugoslav Republic of Macedonia are able to file international applications with the European Patent Office (EPO) as receiving Office, in addition to the State Office of Industrial Property or the International Bureau of WIPO.

This is permitted for international applications filed before 1 April 2009 as well as international applications filed after that date. For the present, the applicant should make such a request in the form of a letter to the International Bureau, which may be submitted together with an international application filed with the receiving Office of the International Bureau or at a later stage.

It should be noted that, at present, the PCT does not recognize priority documents from other Offices which are made available through the Service. It is expected that this will be permitted in the near future, following appropriate modifications to the PCT Administrative Instructions, which will be advertised in this Gazette.

Any correction under Rule 26, rectification under Rule 91 or amendment under Article 34(2)(b) of the description submitted in relation to sequences contained in an international application filed in electronic form shall be submitted in the form of a sequence listing in electronic form comprising the entire listing with the relevant correction, rectification or amendment. Any such sequence listing:

(i) shall preferably be entitled “Sequence Listing – Correction”, “Sequence Listing – Rectification” or “Sequence Listing – Amendment”, as the case may be, and have independent page numbering;

(ii) shall present the sequences represented in the sequence listing and other available information in the sequence listing in accordance with paragraphs 5 to 35; where applicable, the original numbering of the sequences in the international application as filed (as referred to in paragraph 5) shall be maintained; otherwise, the sequences shall be numbered in accordance with paragraph 5;

(iii) shall be in an electronic document format and filed by a means of transmittal in accordance with paragraph 38.

Sequence Listing Not Forming Part of the International Application

4. A sequence listing furnished under Rule 13ter for the purposes of the international search or international preliminary examination:

(i) shall preferably be entitled “Sequence Listing – Rule 13ter”;

(ii) shall present the sequences represented in the sequence listing and other available information in the sequence listing in accordance with paragraphs 5 to 35; where applicable, the original numbering of the sequences in the international application as filed (as referred to in paragraph 5) shall be maintained; otherwise, the sequences shall be numbered in accordance with paragraph 5;

(iii) if furnished on paper in accordance with Rule 13ter.1(b), shall have independent page numbering;

(iv) if furnished in electronic form, shall be in an electronic document format and filed by a means of transmittal in accordance with paragraph 39;

1 Editor’s Note: No independent page numbering is required where the sequence listing is contained in an international application filed in electronic form and is in the electronic document format referred to in paragraph 40.
(v) if furnished in electronic form together with the international application, shall be identical to the sequence listing as contained in the application and be accompanied by a statement that “the information recorded in electronic form furnished under Rule 13ter is identical to the sequence listing as contained in the international application”;

(vi) if furnished subsequently to the filing of the international application, shall not go beyond the disclosure in the international application as filed and be accompanied by a statement to that effect; any such sequence listing shall contain only those sequences that were disclosed in the international application as filed.

4bis. Any correction under Rule 26, rectification under Rule 91 or amendment under Article 34(2)(b) of the description submitted in relation to sequences contained in the international application as filed shall be accompanied, for the purposes of the international search or international preliminary examination, by a sequence listing in electronic form in an electronic document format in accordance with paragraph 39, comprising the entire listing including any such correction, rectification or amendment, whenever this is required by the competent authority, unless such listing in electronic form is already available to that authority in a form and manner acceptable to it. Any such sequence listing in electronic form:

(i) shall preferably be entitled “Sequence Listing – Correction – Rule 13ter”, “Sequence Listing – Rectification – Rule 13ter” or “Sequence Listing – Amendment – Rule 13ter”, as the case may be;

(ii) shall present the sequences represented in the sequence listing and other available information in the sequence listing in accordance with paragraphs 5 to 35; where applicable, the original numbering of the sequences in the international application as filed (as referred to in paragraph 5) shall be maintained; otherwise, the sequences shall be numbered in accordance with paragraph 5;

(iii) shall be filed by a means of transmittal in accordance with paragraph 39;

(iv) shall be identical to the sequence listing submitted under paragraph 3bis as a correction under Rule 26, rectification under Rule 91 or amendment under Article 34(2)(b) of the description and be accompanied by a statement that “the information recorded in electronic form furnished under Rule 13ter is identical to the sequence listing furnished as a correction under Rule 26 (or a rectification under Rule 91 or an amendment under Article 34(2)(b), as the case may be) of the description in relation to sequences contained in the international application as filed”.

Where such sequence listing in electronic form and, where applicable, such statement is not available to the competent authority, any such correction, rectification or amendment need only be taken into account by that authority for the purposes of the international search or preliminary examination to the extent that a meaningful search or preliminary examination can be carried out without such sequence listing in electronic form.

---

\(^2\) *Editor’s Note:* Where a sequence listing in electronic form complying with this Standard is not available to the competent authority in a form and manner acceptable to it (that is, in particular, where it is not available to it in the electronic document format specified in paragraph 40), the competent authority may invite the applicant to furnish to it such a sequence listing in electronic form (see Rule 13ter).

\(^3\) *Editor’s Note:* Irrespective of the electronic document format of the sequence listing, the spatial relationship (e.g., columns and rows) of the data elements included in the sequence listing and the format of the actual nucleotide and/or amino acid sequences, as specified in this Annex, shall be maintained.

APPENDIX III  
BASIC COMMON STANDARD FOR ELECTRONIC FILING

1.  [No change]

2.  BASIC COMMON STANDARD REQUIREMENTS

   An international application complies with the basic common standard

   – as to electronic document format, if it meets the following requirements:
APPENDIX IV
USE OF PHYSICAL MEDIA FOR THE E-PCT STANDARD

1. INTRODUCTION

(a) [No change]

(a-bis) This Appendix also defines the requirements for applicants for the submission of sequence listings in electronic form using physical media where the International Searching Authority or the International Preliminary Examining Authority (“Authority”) has notified the International Bureau under AIs Section 513(f) and 610(e), respectively, that it is requiring the furnishing of such listings, for the purposes of international search and preliminary examination, respectively, in electronic form on physical media.

(b) A receiving Office which has notified the International Bureau under AIs Section 710(a) that it is prepared to accept the filing of documents in electronic form on physical media and an Authority which has notified the International Bureau under AIs Section 513(f) or 610(e) that it is requiring the furnishing of sequence listings in electronic form on physical media shall, in addition to the indications required under those Sections, indicate the physical media types and the number of copies of the physical media that are required.

(c) The acceptable physical media types and formats shall be limited to those described in section 4 of this Appendix, below, provided that any receiving Office referred to in paragraph (a) shall, where the International Searching Authority or, if applicable, at least one of the International Searching Authorities competent for the international searching of international applications filed with that receiving Office has notified the International Bureau under Section 513(f) that it requires the furnishing of sequence listings in electronic form on physical media for the purposes of the international search, accept at least one physical media type that is accepted by that Authority, or, if applicable, by at least one of those Authorities.

(d) Electronic document formats are limited to those described in the main body of this Annex.

2. REQUIREMENTS FOR ELECTRONIC FILING USING PHYSICAL MEDIA

(a) [No change]

(b) The contents of each physical medium shall:

(i) subject to paragraph (b-bis), be packaged in accordance with section 4.1 or 4.2 of the main body of this Annex; and
(ii) subject to paragraph (c), be contained in a single file and be located in the root directory of the physical medium.

(b-bis) Where the physical medium contains a sequence listing furnished under Rule 13ter, the contents of the physical medium need not be packaged, unless the file containing such listing is compressed in accordance with paragraph (c-bis).

(c) A receiving Office or an Authority may limit the size of the files written on the physical medium. If, to comply with this requirement, a single document needs to be split into multiple files written on a single physical medium, or if a single document needs to be split into multiple files to be written on multiple physical media, such splitting shall be done such that the files can be rejoined to form one single contiguous file without any repeated or missing contents in accordance with either the ZIP file splitting standard or the Unix/Linux “split” command. In either case, the file names shall be in accordance with the defaults in those standards for splitting and recreating a file with a particular original name, for example, for “sequence-list.txt” in the case of ZIP split files: “sequence-list.z01”, “sequence-list.z02”, “sequence-list.zip”; or, in the case of Unix split files: “sequence-listaa.txt”, “sequence-listab.txt”, etc.

(c-bis) File compression is acceptable if done, in accordance with section 4.1.1 of the main body of this Annex, according to the ZIP standard (that standard allows the compression software to select from among a number of compression algorithms; the compression method must be “deflation” with the normal compression option).

(d) Each physical medium shall be enclosed in a hard case within an unsealed padded and protective mailing envelope and accompanied by a transmittal letter on paper. The transmittal letter shall state the contents of the physical medium (for example: “international application filed under Section 703” or “[name of other kind of document] filed under Section 703”). The transmittal letter shall also list for each physical medium the machine format (e.g., IBM-PC), the operating system compatibility (e.g., MS-DOS, MS-Windows, Unix), a list of the files contained on the physical medium including their names, sizes in bytes, and dates of creation, plus any other special information that is necessary to identify, maintain and interpret the information on the physical medium. Physical media submitted to the Office will not be returned to the applicant.

(e) Where the receiving Office requires under Rule 11.1(b) that an international application filed in electronic form on a physical medium be submitted in two or three copies, or where an Authority so requires in respect of the furnishing of a sequence listing for the purposes of the international search or international preliminary examination, the transmittal letter that accompanies the physical media must include a statement that the copies of the physical media are identical. In the event that the copies of the physical media are not identical, the Office or Authority will use the physical medium labeled “COPY 1” (see paragraph (f)(vi), below) for further processing.

(f) A physical medium must also be physically labeled with the following information:

(i) to (v) [No change]

(vi) where more than one copy of the physical medium is required by the receiving Office or by the Authority, the numbering of each copy submitted, as follows (example: three copies of the physical media are submitted): “COPY 1”, “COPY 2”, “COPY 3” (see also paragraph (e), above); and
