THE PROCEDURE IN THE NATIONAL PHASE

EG.01 FORMS FOR ENTERING THE NATIONAL PHASE. The Office has available a special form for entering the national phase. This form should preferably be used.

EG.02 TRANSLATION (CORRECTION). Errors in the translation of the international application can be corrected with reference to the text of the international application as filed (see National Phase, paragraphs 6.002 and 6.003).

EG.03 FEES (MANNER OF PAYMENT). The manner of payment of the fees indicated in the Summary and in this Chapter is outlined in Annex EG.I.

EG.04 INVENTOR. The indication of the name and nationality of the inventor is required and must be furnished, at the latest, at the time of entry into the national phase. Where the invention is part of the activities of the public or private establishment to which the inventor is attached, the employer shall have the choice either to exploit the invention or to acquire the patent against a fair compensation paid to the inventor, provided that the choice is made within three months from the date of notifying the grant of the patent. In all cases, the invention shall be attributed to the inventor.

EG.05 REQUEST FOR EXAMINATION. No special form is needed to request substantive examination, but substantive examination will not take place before full payment of the examination fee. The Office shall examine the patent application and its accompanying documents in order to ascertain that the invention is new, involves an inventive step, is industrially applicable and is in conformity with the provisions of the law.

EG.06 POWER OF ATTORNEY. An agent must be appointed by means of a separate power of attorney. If the applicant is not resident in Egypt, an Egyptian patent agent shall be appointed to whom all notifications, documentation and submissions shall be sent.

EG.07 AMENDMENT OF THE APPLICATION; TIME LIMITS. The Office may request the applicant by notification, by registered mail with an acknowledgement of receipt, to amend or complete the application to comply with the provisions of the Law and the Regulations. If the applicant fails to comply within three months from the notification, the application will be considered withdrawn. An appeal against the decision that the application has been considered withdrawn may be filed within 30 days from the notification of the decision before a special committee established to examine appeals against decisions made by the Office. The applicant may amend or correct the international application before the publication of acceptance of the application according to the provisions of the law, provided the scope of the subject matter is not thereby broadened.

EG.08 ANNUAL FEES. An annual fee shall be paid as of the second year until the expiration of the patent protection period (see Annex EG.I). The Office shall notify the person concerned 30 days before the due date for payment of the annual fee. If the applicant fails to pay by the due date, a surcharge shall be imposed, amounting to 7% of such fees. Failure to pay annual fees or surcharges for a period of one year from the due date shall cause the rights conferred by patents for inventions to lapse and the invention to fall into the public domain.

EG.09 DECLARATION OF ORIGIN. Where the application relates to an invention involving plant or animal biological material, traditional medicinal, agricultural, industrial or handicraft knowledge, or cultural or environmental heritage, it shall be accompanied by documentation proving that the inventor has accessed the source from which the material was obtained in a legitimate manner according to the provisions of national law.
**EG.10 DEPOSIT OF BIOLOGICAL MATERIAL.** Where the invention involves biological material, the applicant shall disclose such biological material according to conventional scientific rules, including all necessary information for the identification of the nature, characteristics and uses of such biological material, shall deposit a live culture thereof with a laboratory authorized by decision of the competent minister for scientific research affairs, and shall furnish a certificate to the effect that such deposit was made.

**EG.11 INFORMATION ON EARLIER APPLICATIONS.** The applicant shall, in all cases, provide full data and information on any applications relating to the same invention or its subject matter that he previously filed abroad, including any decisions concerning the status of such applications.

**EG.12 SAMPLES.** Depending on the kind of invention, the Office may request that the applicant furnish samples.

**EG.13 REVIEW UNDER ARTICLE 25 OF THE PCT.** The applicable procedure is outlined in paragraphs 6.018 to 6.021 of the National Phase.

**EG.14 EXCUSE OF DELAYS IN MEETING TIME LIMITS.** Reference is made to paragraphs 6.022 to 6.027 of the National Phase.

**EG.15 APPEALS.** A committee established by a decision of the competent minister is empowered to examine appeals against decisions made by the Office in the application of the provisions of the Law. The decision of the committee may be subject to an appeal by the Office or any interested party before the Administrative Tribunal within 60 days from the date of notification of the decision.

**EG.16 TRIBUNAL.** The Administrative Tribunal shall be competent to consider claims relating to patent decisions.

**EG.17 UTILITY MODEL.** The applicant chooses, upon entry into the national phase, whether to apply for a utility model or for a patent. The choice is made by checking the appropriate box on the national phase entry form.

**EG.18 CONVERSION.** If the Office finds that an invention is novel but lacks inventive step, it must ask the applicant whether the latter wishes to convert the application for a patent to one for a utility model. If the Office finds that an application for a utility model possesses inventive step, it may convert the application to one for a patent.
