THE PROCEDURE IN THE NATIONAL PHASE

TT.01 TRANSLATION (CORRECTION). Errors in the translation of the international application can be corrected with reference to the text of the international application as filed (see National Phase, paragraphs 6.002 and 6.003).

TT.02 FEES (MANNER OF PAYMENT). The manner of payment of the fees indicated in the Summary and in this Chapter is outlined in Annex TT.I.

TT.03 POWER OF ATTORNEY. An agent must be appointed by filing a power of attorney. No special form is required.

TT.04 EXAMINATION. The Office will cause international applications to be subjected to a search and a substantive examination upon payment of the prescribed fee the amount of which is set out in Annex TT.I.

TT.05 INVENTOR. The indication of the name and address of the inventor may be furnished later than at the time of filing. If the data concerning the inventor are missing at the expiration of the time limit under PCT Article 22 or 39(1)(a), the Office will invite the applicant to comply with the requirement within three months from the date of receipt of the invitation.

TT.06 AMENDMENT OF THE APPLICATION; TIME LIMITS. The applicant may amend the international application at any time before a patent is granted, provided that the scope of the subject matter of the application is not broadened thereby.

TT.07 ANNUAL FEES. Annual fees shall be paid to the Office from the international filing date and must be paid before the corresponding year of validity begins. Where Article 22 applies, any annual fees are due within 21 months from the priority date; where Article 39(1) applies, any annual fees are due within 31 months from the priority date. A period of grace of six months shall be allowed for the late payment of the annual fee on payment of the prescribed surcharge. The amounts of the annual fees and the surcharge are indicated in Annex TT.I.

TT.08 EXCUSE OF DELAYS IN MEETING TIME LIMITS. Reference is made to paragraphs 6.022 to 6.027 of the National Phase. Most time limits may be extended at the discretion of the Office, and such extensions may be granted even when the time or period for doing the required action has already expired.

If, upon review under PCT Article 25, the Office denies an error or omission on the part of the receiving Office or the International Bureau, an appeal against this decision may be lodged with the High Court within three months from the date of the decision.

TT.10 UTILITY CERTIFICATE. If the applicant wishes to obtain a utility certificate instead of a patent in Trinidad and Tobago on the basis of an international application, for international applications filed before 1 January 2004, it must have been indicated in the international application (in Box No. V of the request) when filed; for international applications filed on or after 1 January 2004, since the request form no longer provides for the furnishing of such an indication, the applicant, when performing the acts referred to in Article 22 or 39, shall so indicate to the Office.

TT.11 CONVERSION. An international application for a patent may be converted into an application for a utility certificate, and vice versa, at any time before the patent or the utility certificate is granted or before the application is refused, upon request of the applicant and upon the payment of the prescribed fee.
