In 2016 the Government of Australia provided funding to support the research and training of East African and Indo-Pacific researchers, through fellowships at Australian research institutes. Six fellowships – focusing primarily on malaria research and product development – have been completed thus far.

**Fellow Institutes**

- **EIMB**: Eijkman Institute for Molecular Biology
- **icddr,b**: International Centre for Diarrhoeal Disease Research, Bangladesh
- **ITB**: Bandung Institute of Technology
- **PNGIMR**: Papua New Guinea Institute of Medical Research

**Host Institutes**

- **GRIDD**: Griffith Institute for Drug Discovery
- **UM**: University of Melbourne
- **WEHI**: Walter and Eliza Hall Institute of Medical Research

---

**Identifying Genetic Biomarkers for Dengue Disease Susceptibility**

Assoc. Prof. Alyssa Barry (WEHI), Ms. Dulcie Lautu (PNGIMR)

**Identifying Candidate Targets for Naturally Acquired Immunity for the Design of Novel Antimalarial Vaccines**

Prof. Alan Cowman, Assoc. Prof. Wai-Hong Tham, and Dr. Diana Hansen (WEHI), Dr. Rintis Noviyanti (EIMB)

**Training in Malaria Drug Discovery with Emphasis on Natural Product Drug Discovery**

Prof. Leann Tilley and Dr. Natalie Spillman (UM), Ms. Tahmina Ahmed (icddr,b)

**Probing the Ubiquitination System as a Target for Developing New Antimalarials**

Assoc. Prof. Wai-Hong Tham (WEHI), Dr. Indra Wibowo (ITB)

**Identification of Functional Blocking Antibody to Inhibit Entry of the Malarial Parasite in Red Blood Cells**

Prof. Alan Cowman and Dr. Diana Hansen (WEHI), Dr. Tedjo Sasmono (EIMB)

**Molecular Surveillance and the Development of Genomic Tools for Malaria Control**

Assoc. Prof. Alyssa Barry (WEHI), Ms. Dulcie Lautu (PNGIMR)
