

Good morning,

With regard to the proposal made by the distinguished Delegation of Jamaica (document SCT/31/4), the Delegation of Spain has the pleasure to provide with the following comment:

“We support the declaration made by the European Union on the need of a detailed study concerning Country Names (reservation on the study), from all perspectives and points of view, in order to avoid possible obstacles to legitimate commercial practices. We are ready to continue working on this topic”.

Sincerely yours,

Paloma Herreros
