1. Identification page

Please enter the two-letter country code corresponding to your Office or Organization.

Don't know your country code? [Please click here.](#)

PG

Please enter your email address so we can contact you if we have questions about your response.

2. Questions page

1. Please explain any other conditions or requirements for access to patent information besides those covered in Part 1 questions 3 (access mechanism) and 4 (who may access), such as limits on the number of queries, number of results, or data limits.

1. There are no conditions or requirements for access to patent information.
2. Anyone can access the patent data and there are no limits on the number of queries, number of results, or data limits.

2.

Are fees required for access to particular types of information?

NO

If yes, please indicate for which information and explain the access procedure (e.g. how to create an account, what forms of payment are accepted, etc.).

3. If your office uses multiple languages, are the online interfaces for different languages synchronized with the same capabilities and the same data, or do some interfaces have different capabilities or data than others?

Please indicate the reference language(s).

Other (Specify in comments)

Comments: The office does not use multiple language but English only. Interfaces for three different languages (Arabic, Japanese, and French) are also synchronized with same capabilities and same data.

4. Please indicate any differences in the data available in other languages (for example, in the frequency of updates, coverage, search tools, etc.).

	Differences for Language
Published applications	Same data available in other language interface.
Granted patents	Same data available in other language interface.
Legal Status information	Same data available in other language interface.

5. Are documents available for download in a searchable text format?

Examples of searchable text formats include plain text documents, HTML, XML, and certain PDFs that are created with readable text. If a PDF was created from a scanned image with OCR (optical character recognition) applied, then select "PARTIAL" as text may not always be converted correctly.

This question refers only to the content of the document which can be represented as text. Do not consider images or figures in your answer. If a document has both images and text, answer "Yes" if all the text elements are searchable.

	YES	NO	PARTIAL (some text elements not searchable)
Published applications		X	
Granted patents		X	
Amendments, corrections, or other documents with updates		X	
File history		X	

Comments:

6.

Are updated versions of patent documents available online when changes are made after publication (e.g. "as granted" rather than "as filed")?

NO

If yes, please explain how updated documents are presented in search results (e.g. with updated kind codes according to WIPO ST.50).

7. Which parts of patent documents are updated online after publication? Mark all that apply.

Title

Abstract

Other (Specify in comments)

Comments: Application Type and Subtype, Filing Number and Date, PCT Filing Number and Date, Publication Number and Date, PCT Publication Number and Date, Registration Number and Date, Applicant details, Inventor details, Priority Details, IPC Classes, Representative Details, Status

8. Is the event history (list of relevant legal status information) for a given document available in online systems?

Comments:

19. What kind of interface do users have to access your online systems for the available types of patent documents? For example, for published patent applications, granted patents, patent term extensions, fee payments.

Comments: No interface is available on our online system at this stage for users to access the different types of patent documents.

20. Do your online systems use the same web pages or portals for different types of industrial property rights provided by your Office? For example, patents for inventions, plant patents, design patents, inventors' certificates, utility certificates, utility models, patents of addition and others. Answer yes here even if there are multiple web pages or portals for different types of documents (application, legal status history, assignments, etc), as long as each type of IP right is available on the same web page or portal.

Note- this question is about different types of IP rights. Question 17 is about different types of patent documents.

YES

Comments:

21. If there are separate websites or portals for these other types of industrial property provided by your Office, please list them.

22. Do your online systems contain information on documents issued under international or regional IP protection systems, which have (potential) effect in your jurisdiction?

NO

Comments:

23. If so, what types of documents are available, e.g. PCT documents or translations?

24. Is international or regional data searchable in the same online systems as national documentation?

The national online systems provide links to the international / regional systems
