

## **WIPO INDIGENOUS FELLOW**

**One year Fellowship (June 2020 – May 2021), renewable for one further year**

**CALL FOR EXPRESSIONS OF INTEREST**

*The World Intellectual Property Organization (WIPO) seeks expressions of interest from suitably qualified indigenous individuals for the WIPO Indigenous Fellowship.*

### **THE BACKGROUND**

The law and practice of intellectual property is of increasing interest to indigenous peoples, stemming from concerns that indigenous cultural heritage and knowledge systems should be recognized and protected in conformity with the needs, expectations and customary practices of their custodians.

The United Nations Declaration on the Rights of Indigenous Peoples, adopted by the United Nations General Assembly in 2007, provides that indigenous peoples “have the right to maintain, control, protect and develop their intellectual property over cultural heritage, traditional knowledge, and traditional cultural expressions”.

The WIPO Intergovernmental Committee on Intellectual Property and Genetic Resources, Traditional Knowledge and Folklore (the IGC) is undertaking negotiations with the objective of finalizing an agreement on an international legal instrument(s), without prejudging the nature of outcome(s), relating to intellectual property which will ensure the balanced and effective protection of genetic resources, traditional knowledge and traditional cultural expressions.

In parallel, WIPO’s capacity-building program for indigenous peoples aims to enhance their knowledge about the existing intellectual property-related tools, as options to protect their traditional knowledge and traditional cultural expressions, and to facilitate discussions on relevant intellectual property issues among indigenous peoples on how they could use those existing tools, in line with their own objectives and for their own development.

### **WHY AN INDIGENOUS FELLOWSHIP?**

The WIPO Indigenous Fellowship builds on a series of initiatives to ensure that indigenous peoples are actively and effectively involved in the work of WIPO on issues that matter to them. It also seeks to foster legal expertise and skills within indigenous peoples, and offers a professional opportunity to an indigenous person to work within the WIPO Secretariat.

The Indigenous Fellow will work in the WIPO's Traditional Knowledge Division and be involved in a program of activities that is directly relevant to issues of concern to indigenous peoples, including the IGC process, WIPO's outreach to indigenous peoples and local communities, WIPO's capacity building activities, and WIPO's cooperation with other United Nations bodies and mechanisms, such as the United Nations Permanent Forum on Indigenous Issues, the Expert Mechanism on the Rights of Indigenous Peoples and the Special Rapporteur on the Rights of Indigenous Peoples.

The Fellowship Program was approved by WIPO Member States in December 2008 and started in August 2009. Having an indigenous fellow as part of the Traditional Knowledge Division has greatly enriched and reinforced its work.

4. carry out relevant research and draft and prepare relevant WIPO documents, WIPO publications and other outreach and awareness-raising materials, as part of WIPO's work program; and,
5. perform such other tasks that may be required in the context of the work of the Division.

The Indigenous Fellow will not be expected to work as an independent scholar, advisor or analyst, but will operate, on a full-time basis, within the WIPO Secretariat and will directly participate in the delivery of core program outputs.
