This table comprises a non-exhaustive selection of extracts from existing legislative texts which, in one way or another, provide for a specific disclosure requirement related to genetic resources and/or traditional knowledge. The extracts are taken directly from the legislative texts as contained in WIPO’s global database, WIPO Lex. The table contains no interpretation or commentary. In order to facilitate the reading and comprehension of the table, some relevant parts of the extracts may appear in bold, but this highlighting does not appear in the original legislative texts. All information provided is for information purposes only, and is not a substitute for legal advice. The WIPO Secretariat makes every effort to ensure, but cannot guarantee, the accuracy of the data contained in this selection. In particular, WIPO assumes no responsibility for any discrepancy that may occur in the electronic manipulation of the said data. The WIPO Secretariat will continue to add to and update the table over time. Additional contributions to the table, and any corrections and comments, would be appreciated and may be sent to grtkf@wipo.int.

The current version of the Disclosure Requirements Table was updated as at June 2021. Further updates will be made available on the WIPO website: www.wipo.int.

Loi n° 2016-1087 du 8 août 2016 pour la reconquête de la biodiversité, de la nature et des paysages

(Art. L. 412-18.-II
Ressources génétiques et de connaissances traditionnelles associées)

Les utilisateurs de ressources génétiques et de connaissances traditionnelles associées présentent à la ou aux autorités compétentes mentionnées au premier alinéa du présent II les informations prévues à l'article 4 du règlement (UE) n° 511/2014 du 16 avril 2014 précité, dans les cas suivants : […]

2° […] Lorsque [l'utilisation de ressources génétiques et de connaissances traditionnelles associées aux ressources génétiques] conduit à une demande de
brevet, les informations mentionnées au premier alinéa du présent II sont adressées à l'Institut national de la propriété industrielle à la seule initiative du déclarant. L'Institut national de la propriété industrielle procède aux démarches normales de l'examen de la demande de brevet et à l'attribution d'une date de dépôt et transmet les informations sans examen à l'autorité compétente chargée de l'application des règles édictées par l'Union européenne visant à ce que chaque Etat membre contrôle que l'utilisateur sur son territoire de ressources génétiques et, le cas échéant, de connaissances traditionnelles associées à ces ressources y a eu accès dans le respect de toute disposition législative ou réglementaire alors applicable.

L'amende est portée à un million d'euros lorsque l'utilisation des ressources génétiques ou des connaissances traditionnelles mentionnée au 1° du présent I a donné lieu à une utilisation commerciale. II. Les personnes physiques ou morales coupables des infractions prévues au I du présent article encourrent également, à titre de peine complémentaire, l'interdiction, pendant une durée ne pouvant excéder cinq ans, de solliciter, en application des articles L. 4128 et L. 4129, une autorisation d'accès aux ressources génétiques ou à certaines catégories d'entre elles et aux connaissances traditionnelles associées en vue de leur utilisation commerciale.

If the information set out in this subsection is not known, the applicant shall state that.

[...] When the biological material is acquired in accordance with Art. 12 No. 2 and 3 of the International Treaty on Plant Genetic Resources for Food and Agriculture of November, 3, 2001, a copy of a standard material transfer agreement according to Art 12.4 of the Treaty shall accompany the patent application instead of the application shall also state the country of origin.

[...] If the national law in the country of origin requires that access to biological material or use of traditional knowledge shall be subject to prior consent, the application shall state whether such consent has been obtained. If the information set out in this subsection is not known, the applicant shall state that.

The duty to disclose information concerning biological material under the first and second paragraphs applies even where the inventor has altered the structure of the received material. The duty to disclose information does not apply to biological material derived from the human body. When the biological material is acquired in accordance with Art. 12 No. 2 and 3 of the International Treaty on Plant

Legislative Decree No. 1075 on Approval of Supplementary Provisions of Decision No. 486 of the Andean Community

El incumplimiento del solicitante de una patente del requerimiento del contrato referido en el artículo 26, literales h) e i), de la Decisión 486 de la Comisión de la Comunidad Andina, y desarrollado en los artículos 20 y 21 del Reglamento de Acceso a Recursos Genéticos, dará lugar a una o más de las siguientes sanciones, a menos que el solicitante desista del procedimiento de otorgamiento de la patente o provea una explicación satisfactoria de que la invención no utiliza tal conocimiento tradicional o recurso genético del cual el Perú es país de origen:

a) Multa de hasta 1 000 UIT.
b) Compensación.
c) Distribución justa y equitativa de beneficios, incluyendo distribución de regalías y/o otras medidas monetarias o no monetarias.
d) Transferencia de Tecnología y fortalecimiento de capacidades.
e) Autorizaciones de uso.
Siempre que se trate de licencias obligatorias en materia de patentes, serán de aplicación desde el artículo 61 hasta el artículo 69 de la Decisión 486 de la Comisión de la Comunidad Andina y el artículo 40 del decreto legislativo de la presente Ley. (*)

(*) Artículo incorporado por el Artículo 8 de la Ley N° 29316, publicada el 14 enero 2009.

Law No. 27811 of 24 July 2002, introducing a Protection Regime for the Collective Knowledge of Indigenous Peoples derived from Biological Resources

Collective knowledge

Article 2(b)
"Collective knowledge" means the accumulated, transgenerational knowledge evolved by indigenous peoples and communities concerning the properties, uses and characteristics of biological diversity. The intangible components referred to in Decision 391 of COMPLEMENTARY PROVISIONS SECOND.

Submission of the license contract as a requirement for obtaining a patent. Where a patent is applied for in respect of goods or processes produced or developed on the basis of collective knowledge, the applicant shall be obliged to submit a copy of the license contract as a prior requirement for the grant of the rights concerned, except where the

REGISTRATION OF PATENT INVOLVING INDIGENOUS KNOWLEDGE

47. [...] Indigenous knowledge [...] (2) The Registrar must not grant a patent for an invention that is based on, arose out of, or incorporates elements of, indigenous knowledge unless:
(a) the custom owners of the indigenous knowledge have given their prior informed consent to the grant; and
(b) the applicant and the custom owners have entered into an agreement on the payment by the applicant to the custom owners of an equitable share of the benefits from exploiting the patent.

(4) If an agreement mentioned in subsection (2) or (3) has not been entered into within 12 months after the patent application has been lodged:
(a) the Registrar may grant the patent; and
(b) the owner may exploit the patent; and
(c) the Registrar is to determine the amount payable to the custom owners or the National Council of Chiefs by the owner of the patent, being payment of an equitable share of the benefits from exploiting the patent.

Article 23.11 Gene source and/or traditional knowledge

Additional provisions applicable to applications for registration of inventions concerning gene source or traditional knowledge
Apart from the general requirements for invention registration applications specified at Points 23.1 thru 23.7 of this Circular, an application for registration of an invention concerning gene source or traditional knowledge must also contain documents explaining the origin of the gene source and/or traditional knowledge accessed by the inventor or the applicant, if the invention is directly based on that gene source and/or traditional knowledge.

Zambia

28. Where an application for the grant of a patent involves an invention which utilises genetic resources or associated traditional knowledge or both, the applicant shall disclose —
(a) the country of origin of the genetic resources or associated traditional knowledge or both,

28. Where an application for the grant of a patent involves an invention which utilises genetic resources or associated traditional knowledge or both, the applicant shall disclose —
(a) the country of origin of the genetic resources or associated traditional knowledge or both,
resources or associated traditional knowledge in accordance with the Convention on Bio-Diversity; and (b) the source in the country providing the genetic resources or associated traditional knowledge.

(4) Where the applicant fails to, after the notification referred to in subsection (3), make the relevant amendments, the Registrar shall, in writing, refuse the application.

56. A person, including the State, may oppose the grant of a patent at any time, within a period of three months from the date an application for a grant of a patent is advertised, or within such further period as the Registrar may allow, and before the sealing of the patent, by filing a written notice of opposition to the Registrar, stating any of the following grounds:

(i) that the complete specification does not disclose or wrongly mentions the source or the geographical origin or biological material used for the invention;
