Five Pillars of the Digital Economy Framework

Basic Infrastructure
- Roads, Ports, Airports
- Electricity, Water

Digital Infrastructure
- GSM Network, Fiber optics
- Internet coverage
- Data Storage Capacity
- Digital public service delivery

Enabling Environment
- Regulatory
- Policy
- Investment
- Public Acceptance
- Financial Instruments

Enabling Technologies
SHORT TERM
- Cyber security
- Cloud Computing
- Big Data Analytics
- AI
MEDIUM TERM
- Block chain
- IoT
- 3D Printing
LONG TERM
- Biotechnology
- Robotics
- Energy Storage

Human Capital Development
- Upstream: Teachers, Vocational Training.
- Knowledge Creation: Masters, PhDs, Researchers, Entrepreneurs
- Knowledge commercialization: Engineers, Skilled professionals
