NOTIFICATION OF REFUSAL

(Rule 18 of the Common Regulations under the Hague Agreement/ 37 CFR 1.1063)

Applicant must file any reply to this communication directly with the United States Patent and Trademark Office. Applicant may **NOT** file such reply through the International Bureau.

This refusal relates to all the industrial designs that are the subject of the international registration

Art Unit: 2912

The present application, filed on or after March 16, 2013, is being examined under the first inventor to file provisions of the AIA.

DETAILED ACTION

1. Restriction / Election Requirement

This application discloses the following embodiments:

Embodiment 1: Figs. 1.1 – 1.10 (Circular Container Closure having top handle, depressed interior surface and three smaller circular depressions inside the interior surface)

Embodiment 2: Figs. 2.1 – 2.10 (Circular Container Closure having flat depressed interior surface)

Multiple embodiments of a single inventive concept may be included in the same design application only if they are patentably indistinct. *In re Rubinfeld*, 270 F. 2d 391, 123 USPQ 210 (CCPA 1959). Embodiments that are patentably distinct from one another do not constitute a single inventive concept and thus may not be included in the same design application. See *In re Platner*, 155 USPQ 222 (Comm'r Pat. 1967).

Because of the differences identified above, the embodiments are considered to either have overall appearances that are not basically the same, or if they are basically the same, the differences are not minor and patentably indistinct or are not shown to be obvious in view of analogous prior art.

The above embodiments divide into the following patentably distinct groups of designs:

Group I: Embodiment 1

Group II: Embodiment 2

The embodiments disclosed within each group have overall appearances that are basically the same. Furthermore, the differences between them are considered minor and patentably indistinct, or are shown to be obvious in view analogous prior art cited. Therefore, they are considered by the examiner to

Art Unit: 2912

be obvious variations of one another within the group. These embodiments thus comprise a single inventive concept and are grouped together.

Restriction is required under 35 U.S.C. 121 to one of the patentably distinct groups of the designs.

A reply to this requirement must include an election of a single group for prosecution on the merits, even if this requirement is traversed, 37 CFR 1.143. Any reply that does not include election of a single group will be held non-responsive. Applicant is also requested to direct cancellation of all drawing figures and the corresponding descriptions which are directed to nonelected groups.

Should applicant traverse this requirement on the grounds that the groups comprise a single inventive concept or are not patentably distinct, applicant should present evidence or identify such evidence now of record showing the groups to be obvious variations of one another. If groups are determined not to be patentably distinct and they remain in this application, any rejection of one group over prior art will apply equally to all other groups. See *Ex parte Appeal No. 315-40*, 152 USPQ 71 (Bd. App. 1965). No argument asserting patentability between the groups will be considered once the groups have been determined to comprise a single inventive concept.

In view of the above requirement, action on the merits is deferred pending compliance with the requirement in accordance with *Ex parte Heckman*, 135 USPQ 229 (P.O. Super. Exam. 1960).

2. Reply Reminder

Applicant is reminded that any reply to this Refusal must be signed either by a patent practitioner (i.e., a patent attorney or agent registered to practice before the United States Patent and Trademark Office) or by the applicant. If the applicant is a juristic entity, the reply must be signed by a patent practitioner. See 37 CFR 1.33(b).

3. Conclusion/Contact Information

Any inquiry concerning this communication or earlier communications from the examiner should be directed to KELI L. HILL whose telephone number is (571)272-4375. The examiner can normally be

Art Unit: 2912

reached on Monday- Thursday 7:30am-6pm ET. Examiner interviews are available via telephone, in-person, and video conferencing using a USPTO supplied web-based collaboration tool. To schedule an interview, applicant is encouraged to use the USPTO Automated Interview Request (AIR) at <http://www.uspto.gov/interviewpractice>.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Ian Simmons can be reached on (571) 272-26568. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free). If you would like assistance from a USPTO Customer Service Representative or access to the automated information system, call 800-786-9199 (IN USA OR CANADA) or 571-272-1000.
