

SECTION A — HUMAN NECESSITIES

A24 TOBACCO; CIGARS; CIGARETTES; SIMULATED SMOKING DEVICES; SMOKERS' REQUISITES**Note(s) [2020.01]**

In this class, the following terms or expressions are used with the meaning indicated:

- “simulated smoking devices” means devices simulating the act of smoking without burning tobacco, e.g. so called electronic cigarettes;
- “cigarette” means:
 - a small tube of wrapper containing tobacco or tobacco substitutes which people smoke by igniting it directly and where the tobacco (or the tobacco substitute) is burned;
 - in a broader sense it also means a small tube of wrapper containing tobacco or tobacco substitutes which is associated with a heat source at manufacturing or inserted by the user in a device containing a heat source and where the tobacco (or the tobacco substitute) is heated without being burned. In this broader sense, the word “rod” is also often used in place of cigarette.
