

DEFINITION FILE FOR NO AUTHORITY FILE

This definition file relates to the following authority file:
NIPO_AF1991-2024.zip

Date of production
2025-09-27

Data coverage

Public NO documents from 1991-01-01 to 2024-12-31.

The NO authority file lists all NO patent application and EP/NO patent publications.

As for publications with kind code "I1" and "I2" these publications do not have any document related to them because "Supplementary Protection Certificate" are extensions of existing patents within the field of medicinal products and plant pharmaceutical products

Used options: File generated according to WIPO Standard – ST.37 Version 2.2 with the following options:

- The Zip compressed Authority File is Unicode UTF-8 encoded and validated with the ST.37 ANNEX III schema.
- The used publication numbers, kind codes, and application numbers have been described in detail in the Kind Code Analysis section.
- The SearchableLanguageCode element has been assigned to all abstracts, descriptions, and claims that are available in text format.
- The Authority File does not contain priority data.

Kind Code Analysis

This section provides a detailed analysis of the kind codes used in patent applications and publications in the Authority File.

NO patent Kind Codes (1991.01.01 – 2024.12.31)

L Kind Code, Publication numbers in two series. Changed at turn of the millennium.

- Patent application publications. Publication and patent numbers in the Authority File match the document cover pages.
- Series one (YYNNNN): 741642 – 996590, latest publication 2014.06.30
- Series two (YYYYNNNN): 20000003 – 20161521, latest publication 2010.12.30

A Kind Code, Publication numbers in two series. Changed at turn of the millennium.

- Patent application publications. Publication and application numbers in the Authority File match the document cover pages.
- Series one (YYNNNN): 845055 – 996567 latest publication 2001.05.21
- Series two (YYYYNNNN): 20000071 – 20101567, latest publication 2010.11.24

A1 Kind Code, Publication numbers (YYYYNNNN) 20020338 – 20241224, latest publication 2024-12-13, ongoing series

- Patent application publications. Publication and application numbers in the Authority File match the document cover pages.

B Kind Code, Publication numbers (NNNNNN) 165781 – 180817, latest publication 1997.07.07

- Patent specification publications. Publication and patent numbers in the Authority File match the document cover pages.

C Kind Code, Publication numbers (NNNNNN) 113611 – 180817, latest publication 2008.04.07

- Patent specification publications. Publication and patent numbers in the Authority File match the document cover pages.

B1 Kind Code, Publication numbers (NNNNNN) in two series.

- Patent specification publications. Publication and patent numbers in the Authority File match the document cover pages.
- Series one: 169601 – 180693, latest publication 2007.06.11
- Series two: 300001 – 348388, latest publication 2024-12-23, ongoing series

B2 Kind Codes, Publication numbers (NNNNNN) 301677 – 346593, latest publication 2022.10.24, ongoing series

- Patent specification following an opposition.

B3 Kind Codes, Publication numbers (NNNNNN) 168151 – 343929, latest publication 2019.07.08, ongoing series

- Patent specification amended following administrative procedure.

I1 Kind Code, Publication numbers (YYYYNNN) 1994001 – 2024061, latest publication 2024-12-17, ongoing series

- Application for Supplementary Protection Certificate (SPC)

I2 Kind Code, Publication numbers (YYYYNNN) 1999001 – 2018031, latest publication 2019.02.19, ongoing series

- Granted Supplementary Protection Certificate (SPC)

T3 Kind Codes, Publication numbers (NNNNNNN) 1946686 – 3262066, latest publication 2018.12.22, ongoing series

- Norwegian Translation of an EP patent valid in Norway, claims + any part.
