

## DEFINITION FILE FOR UA AUTHORITY FILE

This definition file relates to the following authority files:  
UA\_AF\_20250318.xml

**Date of production:**  
2025-03-18

**Data coverage:**  
Public UA documents from 01.01.1993 to 18.03.2025.

The UA authority file lists all UA patent and UA utility model publications.  
A detailed data about patent documents can be found online at:

[https://sis.nipo.gov.ua/media/st\\_37\\_dossier/UA\\_AF\\_20250318.zip](https://sis.nipo.gov.ua/media/st_37_dossier/UA_AF_20250318.zip)

Coverage according to document type and kind-of-document code (see Part 7.3 of the WIPO Handbook for details on kind codes):

Type	Kind Code	Total
Specification for a patent for an invention granted without substantive examination. Specification for a declarative patent for an invention	A	44765
Specification for a patent for an invention that was protected by the USSR author's certificate	A1	8359
Specification for a patent for an invention granted on the basis of a positive decision of the Patent Office of the former USSR	C1	1026
Specification for a patent for an invention granted on the ground of a national application.  Specification for a patent for an invention granted on the ground of an application filed with the Patent Office of the former USSR for which no positive decision was taken	C2	79978
Specification for a patent for a utility model. Specification for a declarative patent for a utility model.	U	158627
all		292755

Comments:

UA has independent numeration for inventions and for utility models. Some numbers of patent for inventions and utility models can be used twice. In that case the same number has different kind code document.

A, A1, C1, C2 are used for inventions, and U – for utility models.

File UA\_AF\_20250318.xml is added.
